

# INSTALLATION INSTRUCTIONS

**FFT3801CH**  
**Three holes faucet**

## Important

We recommend that this product is installed by a qualified professional contractor.

- Please check this product immediately to ensure that it has not been damaged and is complete.
- Please flush the water system to ensure that no debris or any other impurities can enter the taps.
- Turn off water supply before commencing work.
- Please read these instructions carefully and keep for future reference.

## Maintainance

We do NOT recommend you use any household cleaners to clean the product. Because these cleaners change substance or formula too frequently. The product should always be cleaned with soapy water and rinsed with clean water and dried with a soft cloth.

## Dimensions

Unit:inches
