

## HL14CHESWW

### COOLING CAPACITY

ASHRAE BTU 14,000 BTU

DOE BTU<sup>1</sup> 8,500 BTU

Enjoy Peace of mind and more peaceful sleep with the Contempo Series Portable Air Conditioners.

One of the quietest Portable Air Conditioners in its class, the Contempo series creates between 49 to 52 dbA (depending on the BTU and fan speed). That's about the sound level of an average conversation between two people in a quiet room.

What's more? A built-in Sleep Mode is a pre-set 10-hour program that increases the temperature at fixed intervals, so you can save energy when you are least active. Sleep Mode reduces the temperature gradually near the end of the cycle so you can start your day in a cool room again.

Built-to-last, a Dual Filtration system protects and extends the life of the AC, while thermal overload protection on the compressor and motor, means extra safety precautions for added endurance and peace of mind for you and your family.

Product Dimensions (in): 18.9 (W) 15.7 (D) 31.3 (H)  
Net Weight: 76.1 lbs / 34.5 kg

Dual Filtration System Protects and Extends the Life of the AC

Quick and Easy Installation - Save Time, Save the Heavy Lifting

Quiet Operation - Between 49 to 52 dbA

Sleep Mode - Save Energy When You are Least Active

## FEATURES & BENEFITS

**4-in-1**

Cooling, Heating  
Dehumidification,  
Fan

Dehumidification Capacity  
111.6 pints/24 hr  
(52.8 L /24 hr)\*

Powerful Air Flow  
241 CFM (410 m<sup>3</sup>/hr)\*

Adjustable Temperature  
60°F to 90°F (16°C to 32°C)

Soft-Touch  
Controls

Find out more about portable air conditioners:  
[www.honeywellportableac.com](http://www.honeywellportableac.com)

<sup>1</sup> In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the difference is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website.

\* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.

# Except in very high humidity conditions.
