

Primary Uses: Solvent/Cleaner: Use throughout the entire paint preparation and cleanup process

- Paint clean-up
- Caulk, urethane, epoxy, adhesives and resin clean-up
- Tool cleaning
- Hand cleaning
- Dirt/grime/adhesive removal
- Paint area preparation and cleaning

To Open Package: Remove lid and induction seal. Pull out wipe from center of wipe roll and feed through the center threads of lid. Next sheet pops up automatically. Close lid to retain moisture.

How to Use: Clean hands, surfaces and tools after application using MiracleWipes. Prepare surfaces before painting with MiracleWipes to remove dirt, grease, and grime and ensure even application of paint. Wipe-off remaining residue from surface with damp wet cloth prior to painting. Add water to any job that requires heavy-duty cleaning.

Works on: Oil paint, latex paint, stains, caulk, epoxy, urethane, urethane foam, fiberglass resin, grease, oil, pine pitch and even ink.

Safe for: Hands, tools, metal, glass, plastic, porcelain, ceramic, stone, cement, leather, wood, carpet, and wicker.

Suggestion: Always test MiracleWipes on a small, hidden surface area to determine compatibility and desired result before overall application.

Application: Remove wipe from container and clean affected area until wipe is saturated with contaminant or surface area is clean. Repeat if necessary.

MiracleWipes are low VOC and consumer-safe for the painting and coatings industry, marine industry, building industry, and automotive industry.

Product Category: Heavy Duty Hand Cleaner - 1% VOC Compliant
