

Care and Cleaning

Cushions and pillows may be cleaned by hand with mild soap and water. Please do not use abrasive materials or cleaners such as bleach on the fabrics. Rinse the cushions thoroughly and allow drip-drying. DO NOT machine wash or tumble dry cushions and pillows as they may shrink.

In order to prolong the life of your patio furniture and accessories (such as cushions and pillows), when not in use or during any inclement weather: hail, sleet, snow, strong wind, fire, extreme heat, and freezing conditions, the patio furniture and accessories needs to be stored in a dry, sheltered place.
