

30 Foot RV Extension Cord

50 Amp Standard Male to

50 Amp Locking Electrical Adapter

Make it easier to connect your equipment to your RV by providing additional length.

Use with marine-style 50 Amp RV power inlet.

Standard end has gripped handle making unplugging safer.

30 Foot extension cord includes storage strap.

Constructed with copper wiring coated with a heavy duty flame retardant, heat resistant PVC sheath.

Safe & secure locking ring creates a weatherproof connection for additional protection.
