Strut Spring Compressor

Specifications:

- Designed specifically for MacPherson struts
- Works on springs to 7 in.
- Lead screw torque: 15 ft. lbs.
- Support arm length: 15-1/4 in.
- Maximum Opening: 8"

Features:

- This single action strut spring compressor is ideal for tire, body and specialty shops, independent garages, dealerships and service stations.
- It works on MacPherson struts with springs up to 7 in. in diameter, providing balanced pressure on two sides of the spring for easy repair or replacement of the struts.
