31110	836		36	900	5	125	11	5.0	
31115	848		48	1,200	6	150	18 ½	8.4	1

Nom. Size = nominal length of handle

Nom. Pipe Capacity = maximum nominal diameter of steel pipe

## WRENCHES

The flagship product that helped build our name, RIDGID® wrenches have been trusted by tradesmen for decades. Simple, time-tested designs offer exactly what you need to get the job done quickly and effectively. Available in various configurations for gripping and turning a wide range of pipe and fitting types.

### STRAIGHT PIPE 12" #31015

Made of heavy duty cast iron with a pipe capacity up to 2".

### STRAIGHT ALUMINUM 12" #47057

Made of durable, easy to use professional strength aluminum with a pipe capacity up to 2".

### ONE STOP #27023

Two wrenches in one to install angle stops and compression couplings.

### FAUCET & SINK INSTALLER #66807

Made from lightweight, high-strength plastic construction with durable aluminum inserts.

## PIPE VISES & SUPPORTS

Made of strong, dependable iron, RIDGID vises and supports are versatile and rugged enough to withstand your jobsite needs year after year. Available in various sizes for handling a variety of pipe sizes and types.

### VF-99 PIPE STAND

#22168  
Folding design makes it easy to transport, supports up to 2,500 lbs.

### 425 PORTABLE TRISTAND® CHAIN VISE #16703

Supports pipe 1/8" to 2 1/2" diameter.

## PIPE/TUBE CUTTING & PREPARATION TOOLS

Choose from a huge selection of pipe cutting tools that offer exclusive features designed to make cutting more efficient and your job easier. All cutters are made from heavy-duty materials to withstand any job and be dependable for years to come.

### 2-IN-1 CLOSE QUARTERS CUTTER #32573

Features a removable ratchet handle, designed for use in restricted spaces on small diameter hard and soft copper, aluminum, brass and plastic tubing.

- Easy control of cutting pressure for clean cuts

### QUICK-ACTING TUBING CUTTER #31632

Quick-acting design, hardened wear surfaces and thrust-bearing slide assemblies for smooth operation.

- Professional strength aluminum with a pipe capacity up to 1 5/8"

## PRESS TOOLS

A fast and reliable way to join copper, stainless steel and PEX, RIDGID press tools feature a swiveling barrel and a powerful 18V Lithium-Ion battery.

### RP 210-B #31028

- Capacity: 1/2" to 1 1/4" (copper & stainless), 3/8" to 1 1/2" (PEX)
- Hydraulic Ram Output: 5,400 lbs. (24kN)
- Weight: 6.4 lbs. w/battery

### RP 330-B #27923

- Capacity: 1/2" to 4"
- Hydraulic Ram Output: 7,200 lbs. (32kN)
- Weight: 10.0 lbs. w/battery

# WRENCHES

RIDGID® Pipe Wrenches are world-renowned for their unsurpassed toughness and serviceability. The original heavy-duty pipe wrench, pictured below, has earned the confidence of pipe professionals for over 80 years because it does the job right the first time, every time. RIDGID Pipe Wrenches are also available in a wide variety of purpose-built configurations, and are available with cast aluminum handles that offer an average 40% weight reduction.

Full floating forged hook jaw for fast ratcheting action.

Knurled adjustment nut for easy one-handed operation.

Graduations on hook jaw show approximate size of opening for different pipe sizes.

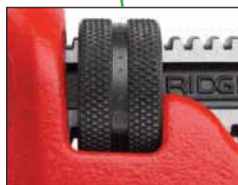

Extra large self-cleaning threads.

Wide gripping surface for increased comfort.

Replaceable, twice hardened alloy steel jaws. Precision-milled, biased tooth design maximizes gripping strength and tool life.

Large flange prevents nut from being inadvertently rotated when wrench is set down.

I-Beam handle allows for maximum strength and minimal weight.

Convenient hanging hole for easy storage. Enlarged handle end helps prevent slippage.

RIDGID Lifetime Warranty.

**Proudly manufactured at RIDGID headquarters in Elyria, Ohio, U.S.A.**
