

STRAIT-FLEX®

New Concept Drywall Products

MID-FLEX 300

DESCRIPTION (Speed, Perfection and Longevity)	Patented PVC tight fibered cotton composite corner tape with diamond-punched paper edging that is 3” wide, .027” thick and comes in 100’ rolls. Strait-Flex Mid-Flex 3 has PUR-laminated nose to protect against paper fuzz-ups during finishing and sanding.
ADVANTAGES	<ul style="list-style-type: none"> • Straightens small framing irregularities. • Memory-free hinge design allows for ease of installation and straighter corners. • Installs fast using standard compounds. No special tools or fasteners needed. No nail pops. • Inside 90 ° corners where a large fill or straightening is required, or where strength and speed of finish are required. • Diamond-punched paper ensures ultimate bonding and faster drying. • Second coat of compound can be applied immediately-very light skim coat to finish. • Use in place of metal cornerbead. • Rustproof. • No. Cracks. No Callbacks.
WARRANTY	Strait-Flex products are backed by a lifetime warranty. When applied to a sound structure, built on a permanent foundation using recommended application techniques, we warrant that these products will not edge-crack for the lifetime of the structure. Contact Strait-Flex International Inc for complete details.
DIRECTIONS	<ul style="list-style-type: none"> • Cut Strait-Flex to desired length. Adjust to desired angle. • Apply using a liberal coat of all-purpose compound with joint knife. Use tile setting compounds in wet areas. • Press Strait-Flex into wet compound. Adjust if necessary to create straight line and wipe down with joint knife. Immediately apply light skim coat and let dry. • Apply final coat, let dry and sand.
STORAGE	Store in dry place protected from moisture.
