

# Ross® Root Feeder

## Tree Care Products

### Benefits

- Deep feeding system specially designed to water and fertilize below the surface where the active roots grow
- Ross Root Feeder can be used with both Easy Gardener and Ross brand fertilizer refills
- Delivers food, nutrients and water directly to the roots for immediate results
- Results in healthy, fast growing trees, shrubs, fruit and nut trees, and evergreens
- Watering below the surface protects trees against drought and cold stress
- No water evaporation
- Eliminates the mess, hazards, and smells of sprays and granules
- Convenient and effective

*Ross Root Feeder feeds and waters trees at the roots where they need it most.*

### How to Use

- For best results use the Ross Root Feeder in the spring, plus during hot, dry summers and autumn growth.
- Connect a garden hose to the Root Feeder, and insert the feeding tube into the soil around the dripline.
- Fill the fertilizer chamber with the appropriate fertilizer and let water flow through to the roots.
