 French: Scannez le code pour les instructions.

YOU MAY NEED

posts
 staple gun
 sod staples
 tent-style stakes
 hog rings
 self-locking ties
 scissors
 hammer

INSTRUCTIONS

(1) Cut your Tenax netting with scissors or wire cutters into necessary sections. (2) Secure to wooden applications by hammering u staples or using a stapling gun every 3-4 inches around wooden surface or until your Tenax netting is completely secure. (3) Use sod staples or tent-style stakes to secure your Tenax netting every 3-4 inches into the ground when performing applications require ground contact. (4) Use hog rings, tie wire or self-locking ties to secure two sections of Tenax netting together. Over lap sections 3-4 inches to improve strength of the connection. (5) Roll cut sections into circles for tree guards.

(6) Over lap vents, ducts and storm drains by 3-4 feet in cut sections. (7) Roll into semi-circles for gutters and lay into the gutter with the apex of the semi circle up.
