

Southern Yellow Pine Lumber

PRODUCT VERSATILITY

Ideal for a Wide Range of Uses

Southern Yellow Pine Lumber

Southern Pine readily accepts preservative treatments and is highly resistant to wear, making it suitable for decks, patios, marinas, boardwalks and other high-traffic applications.

Product Versatility and Sturdiness

- Machine stress rated product, making it an outstanding choice for framing.
- Unique wood fiber, paired with state-of-the-art manufacturing, lets us deliver the innovative product solutions you demand.

Reliable Production

- Sourced by more than four million acres of supplier-owned or leased timberland, managed for sustainable sawtimber production.
- Packages are wrapped to ensure lumber arrives clean and bright.
- Southern is available in sizes 2x8, 2x10, 2x12.
