TechStar Plastics

Swim Raft Floats Kit

Tommy Docks - TechStar RF-1 Raft Float kit makes a perfect 8-ft. x 8-ft. Swim Raft which is sure to keep the family busy for hours. Molded in a beautiful Sandstone color, this float matches perfectly with TechStar's DL-5 and DL-4 Dock Ladder and Dock Stairs. A simple 2-in. x 6-in. frame and decking are required to complete the swim raft in the lumber of your choice. The 4 Floats bolt directly to the 2 in. x 6 in. frame. Lumber (not included in kit).

Package Includes:

- 4 Floats included in the kit supports 1200 lbs. of weight
- Dock bumpers are built in as part of the float
- Each raft float section is filled with closed cell EPS (expanded polystyrene) for added security
- Polyethylene raft floats are environmentally friendly, and resistant to wildlife and gasoline
- Kit comes complete with 4 RF-1 swim raft floats, 2 anchor brackets for anchoring swim raft and all bolts to attach floats and anchor brackets to your 2 in. x 6 in. frame
- Construction is simple. Build a frame without corner brackets and attach floats through molded bolt holes
- Build with a 2 x 6 frame and 2 x 6 deck boards can recess in the top of the floats for a clean finish
- 48" x 48" x 15.5"
