

The Squire

Deluxe Mail Box Post by Grisham Bros.

Care and Maintenance

As with all products exposed to the outdoor environment, your Grisham mail box post will require some periodic cleaning and maintenance to keep it looking beautiful. The maintenance frequency depends on where you live. Products in harsher environments require more frequent care. Please follow the below guideline for product maintenance.

Cleaning and restoring the painted surface: Rinse the surface with clean water to remove all debris and road grit buildup. Gently clean the surface with a mild soap and water, and rinse. To help restore the original finish, use an automotive wax or a WD-40 lubricant or equivalent.
