

Everything Under The Sun!

SOLAR COOLING HAT -4033

Features

- Portable air cooling system in a hat
- Keeps you cool in the sun
- Works in direct sun
- Comes with a choice of 2 different blades
- ABS plastic blades for maximum cooling
- Polyester soft blades for safety

Instructions

To install the blade to the cap: Gently press the blade onto the spinning rod.
Remove the label on the top of the cap to expose the solar panel.

For young children we recommend using the fabric blade included instead of the plastic blade.

Note

Please keep hair, eyes and face away from blades.
If the blade is touching any part of the cap it will not turn.

To clean:

Use a moist towel to gently clean the blade and the cap when the fan is not activated under the sun.

Specifications:

Size: Standard adult hat size

Contents: 100% Cotton

Comes with two (2) blades:
ABS plastic blades for maximum cooling
Polyester soft blades for safety
