**Natural finish stone** > 200-255 sq.ft. (19-24 m<sup>2</sup>)

*Coverage rates are indicative and per coat.*

#### Packaging:

1 PT (473 ml) 5 plastic bottles per box

1 QT (946 ml) 5 plastic bottles per box

### WHAT IT'S FOR

- Enriches the color of polished, honed, textured and tumbled natural stone.
- Highlights the natural surface character.
- Protects the surface from dirt, water and oil stains.
- Enhances and intensifies the stone's natural color with a matte finish.
- Excellent protection for countertops, inlays and backsplashes.
- Hides cracks on granite surfaces.

### ADVANTAGES

- Ideal for indoor and outdoor surfaces.
- Does not form a film or yellow over time.
- UV resistant.
- Long lasting protection.
- Certified safe in food preparation areas.
- Provides very high coverage rates.

### HOW TO USE IT

**Instructions:** On a clean, dry surface apply **FILASTONE PLUS** with a paintbrush or lambswool applicator sponge or other suitable applicator. Rub the surface to allow the product to completely penetrate and wipe away any excess residue. The surface can be walked on after 8 hours. For deeper, more intense color, apply 2-3 coats; wait at least 8 hours between coats.

**Caution:** Once the surface has been treated with **FILASTONE PLUS**, the treatment cannot be reversed; the stone cannot return to its original state. Before full application, test the product on a small, inconspicuous area or loose sample. Apply and leave the product to dry in a well ventilated area. Keep the product in a cool, dry place.

**Storage temperature:** between 32°F and 86°F (0°C and 30°C). Must be applied at temperatures between 41°F and 86°F (5°C and 30°C).
