

Design Tips

- Start with the first wall on the left and work to your right around the room. Measure the overall length of each wall.
- Indicate breaks in walls (windows, doors, closets) by measuring to the outside edge of the molding. Include permanent appliances, air vents, electrical, plumbing, etc.
- Start sketching your cabinets. Start in the 0", 0" corner and work outward.

You may be able to move major appliances several inches to accommodate a layout change.

Designing with Different Wall Cabinet Heights

Typical layouts with 8-foot ceilings

Maximize storage with taller walls and pantries

Achieve different looks

How to Turn the Corner

Lazy Susan Option

Block Out Option

Blind Base Option
