A drought friendly alternative to brown lawns and overwatering!

Lawn Miracle uses a proprietary formulation of recycled materials and when used as directed pose no harm to your lawn or the environment.

GO GREEN X 2: GREEN LAWN, GREEN PRODUCT

LAWN MIRACLE

***RANCHO PALOS VERDES
CALIFORNIA WATER SERVICE COMPANY***

When California Water Service Company in Rancho Palos Verdes was faced with the challenge of conserving water and maintaining the aesthetics of their grass, they turned to LAWN MIRACLE for the solution. Two months later the grass is still greener on the other side of the fence, which makes the residents of Rancho Palos Verdes very happy.

So Simple to Use!

Pre - Diluted

1. Protect ALL surfaces not receiving Lawn Miracle. (i.e. Sprinkler heads, curbs, sidewalks, etc.)
2. Shake well before using.
3. Put well mixed products in a yard/garden sprayer. Pump up and START spraying. (Finest Mist setting is recommended).
4. Enjoy your beautiful Green Grass!

Concentrate

1. Protect ALL surfaces not receiving Lawn Miracle. (i.e. Sprinkler heads, curbs, sidewalks, etc.)
2. Shake well before using. Mix 1 part of Lawn Miracle to 6 parts of water.
3. Put well mixed products in a yard/garden sprayer. Pump up and START spraying. (Finest Mist setting is recommended).
4. Enjoy your beautiful Green Grass!

INSTRUCTIONS

- For dead and dormant grass mix 1 part of Lawn Miracle to 6 parts water. The desired shade of green varies depending on the dilution of the paint. Adjust the water according to your desired shade.
- For best results, spray on the grass in a circular pattern with the sprayer set on the finest mist setting.
- Average drying time is about 2 hours assuming that the sun is out. Do not apply on windy or rainy weather.
- Cover surrounding areas that may get overspray to avoid staining.
- If overspray occurs on concrete, immediately brush with warm soapy water and rinse.

PRECAUTION

- Protective clothing, gloves, goggles and breathing mask must be worn at all times to avoid irritation.
- Do not let pets or children come in contact with the treated grass until completely dry.
- Eye and skin contact may cause irritation. May be harmful if swallowed.
- If eye and skin irritation occurs from contact or if accidental ingestion happens, consult your physician immediately.
