

*Van Zyverden's*  
**GIANT CANNAS STUTTGART**

As flamboyant as their tropical American ancestry, cannas are among the most colorful summer bulbs with ruffled spikes tapering to refined buds, boasting immense, paddle shaped leaves. Their great reedy canes and palmy foliage make for large, magnificent plants, yielding blooms all summer long for long lasting curb appeal. They are deer resistant and appear most dramatic when grouped in masses. These are fast growers with large flowers.

*Exotic tropical foliage  
and color*

*Good in garden beds  
or larger containers*

*Easy to grow  
and low maintenance*

*About This Variety:* Canna Stuttgart is a most spectacular variegated canna. It was discovered in Germany hence its name. What makes this canna so unique are its blocks of white variegation on its leaves. Where the green and white blocks come together there will also be some shades of blue green and silver. Sometimes these blocks will turn more yellow. The flowers are pale apricot. A partially shaded spot will help protect its leaves from sun burn.

*Growing Instructions:* Where not hardy, plant outdoors in early summer 2" deep, setting the rhizome in the hole, 'eyes' (shoots) up. Cannas do best with a good supply of water.

*Care Tip:* As flowers fade, deadhead to promote continued flowering. They like moist conditions.

*Exposure:* Full sun to partial shade

*Height:* Grows 84" tall

*Spacing:* Plant 18-24" apart, 2-4" deep

*Hardy in:* USDA zones 8-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
