

Objective:

Remove one block at a time from the puzzle, and then place it onto the top of the puzzle. The last player to stack a block without the puzzle breaking wins the game!

Setup:

- Insert blocks from the carry bag into your wood puzzle mold on preferably an open floor.
- Place 3 blocks side by side lengthwise for each layer. Repeat layers one on top of the other in alternating directions to create a sturdy puzzle.

Gameplay:

For 1 or more players:

- Whichever player placed the last piece onto the puzzle goes first. Play passes to the left.

On Your Turn:

- Attempt to remove a block from anywhere below the top layer.
- Use only one hand!
- Place the removed block onto the top just as you would build the puzzle.
