Warranty

1 YEAR FRAME AND FABRIC WARRANTY

WHAT IS COVERED
We warrant the frame and fabric to be free of manufacturing defects to the original purchaser for one year.

WHAT IS NOT COVERED
It remains the customer’s responsibility for freight and package charges to and from our service center. This warranty does not cover commercial use, hardware, acts of nature, fire, freezing and abusive use. In addition, purchased parts are not covered under this warranty. We reserve the right to make the substitutions with similar merchandise, if the model in question is no longer in production.

Safety Information

WARNING: Keep all flame and heat sources away from this gazebo fabric.

WARNING: The application of any foreign substance to the gazebo fabric may render the flame-resistant properties ineffective.

WARNING: This gazebo is made with fabric that meets CPAI - 84 specifications for flame resistance. It is not fire proof. The fabric will burn if left in continuous contact with any flame source.

CAUTION: This gazebo is made for the explicit purpose of providing limited outdoor sunshade and is not to be used as a toy, shelter, or tent.

CAUTION: Do not locate the gazebo near any open flame.

CAUTION: Do not use the gazebo as a support.

CAUTION: Do not shake, lean, or climb on the gazebo.

CAUTION: Children under the age of 10 who are near the gazebo should be supervised by a competent adult at all times.
Pre-Assembly

PLANNING ASSEMBLY

Read all instructions before assembly.

To avoid damaging this product, assemble it on a soft, non-abrasive surface such as carpet or cardboard.

NOTE: More than one person may be required to assemble this product.

HARDWARE INCLUDED

NOTE: Hardware not shown to actual size.

1 Assembling the corner pillars

- Screw the decorative balls (S) onto the top of the pillars (B and C).
- Line up the bolt holes on the pillar (A, B, and C) with corresponding bolt holes on the panels (D).
- Attach the panels (D) to the pillars (A, B, and C) using M6x25 bolts (BB).
- Attach the foot edge (L) to pillars (A, B, and C) using M6x15 bolts (AA).
- Repeat step 1 for the remaining sets of pillars (A, B, and C), panels (D), and foot edges (L).

**NOTE:** Loosely tighten all bolts using the screwdriver (HH).
2 Attaching the beams

- Insert beam (E) into beam (M) and line up the bolt holes.
- Secure beam (E) to beam (M) using M6x15 bolts (AA).
- Repeat step 2 for the remaining sets of beams (E and M).

NOTE: Loosely tighten all bolts using the screwdriver (HH).
3 Attaching the beams to the pillars

- Line up the bolt holes on the ends of the connected beams (E and M) with the corresponding bolt holes on the pillars (A).
- Attach the connected beams (E and M) using M6x15 bolts (AA).

NOTE: Make sure that the round tubes on the beams are facing inward.

NOTE: Loosely tighten all bolts using the screwdriver (HH).
4 Assembling the upper canopy frame

- Insert the top tubes (F) into the top tubes (G) making four long canopy spokes.
- Insert the four top tubes (G), of the long canopy spokes, into the four long tubes of the canopy hub (K).
- Insert the short canopy spokes (H) into the four short tubes of the lower canopy hub (K).
- Attach the four top tubes (F), of the long canopy spokes, to the pillars (A) using M6x28 bolts (CC) and M6 nuts (DD) the bolt should be inserted from the right side to the left side of the tube (F).
- Attach the four short canopy spokes (H) to beams (E and M) using M6x15 bolts (AA).
- Once all bolts are in place, fully tighten all bolts, and place M6 nut covers on all nuts.
5 Placing the large fabric cover

- Place the large fabric cover (O) on top of the assembled frame.
- Fully extend the large fabric cover (O) to the end of the spokes.
Assembly (continued)

6 Assembling the upper canopy frame

- Insert the upper canopy spokes (I) into the upper canopy hub (J).
- Then insert the upper canopy spokes (I) into each of the top tubes (G).
7 Securing the canopy top and attaching the side walls

- Place the small fabric cover (N) on the upper canopy spokes (I) and fully extend the small fabric cover to the ends of the upper canopy spokes (I).

- Put up the two side walls (P) on the beams (E and M).

**NOTE:** The harbor gazebo package includes two privacy side walls designed to cover two corners of the gazebo.
Hanging the netting

- Put up the netting (Q) onto the beams (E and M) with the plastic rings (R).
9 Stabilizing the gazebo

- Insert the corkscrew ground spike (GG) through the hole on the foot edge (L) of the connected pillars (A, B, and C).
- Twist the corkscrew ground spike down into the ground until the foot edge (L) is secure.
- Pound the ground spikes (FF) through the other hole of foot edge (L) of the connected pillars (A, B, and C) until the ground spike (FF) secures the foot edge (L) to the ground.
- Repeat this step for the other three pillars (A, B, and C).

**NOTE:** You may opt to insert a ground spike (FF) through the loop in the corkscrew ground spike (GG) to assist in twisting the corkscrew ground spike (GG) into the ground.

---

Care and Cleaning

- For the best results, clean the frame with a damp cloth and dry thoroughly. This will help prevent mildew by removing dirt particles that may accumulate.
- Do not clean with abrasive materials, bleach, or solvents.
- Store the gazebo in a dry, sheltered place when not in use.
- Keep the gazebo out of fire, extreme heat, freezing conditions, and inclement weather such as rain, hail, sleet, snow, or wind.
