

72074 – CARPET TRIM SMOOTH 1 3/8" X 36" SATIN BRASS

Carpet Trim covers a narrow seam or gap between two flooring surfaces of unequal height. Carpet Trim prevents carpet edges from fraying, vinyl floor seams from curling and creates a smooth transition between two flooring surfaces. Aluminum trim is easily secured to wood floors with provided Screw Nails. For installation on concrete floors use Screw Nails along with Wooden Pegs (sold separately).

- Durable aluminum withstands high foot traffic areas in the home
- For use in doorways, room entry ways or other locations where two uneven flooring surfaces meet
- Screw Nails fit firmly in pre-drilled holes for easy installation
- Can be cut to desired length with hack saw
- Smooth product design
- Satin Brass finish
