Illustrated Parts Breakdown (IPB) Model Style Lite®

No.	QTY	PART #	PART DESCRIPTION
#1	2		Mirrored Panels
#2	1	A1012	Ultraglide® Top Channel
		F2020	with Felt Liner
#3	1	A2020	Bottom Track
#4	1	W0101	Wood Strip
#5	6	S0095	#8 x 1-1/2 PH SMS Screws
#6	8	S0160	#8 x 3/4 Hex Head Screws
#7	4	S0055	#8 x 1/2 Truss Screws
#8	2	HMA	Mirror Handles
#9	2	B0101	Clear Plastic Bumpers
#10	4	N2030	Concrete Nails
#11	4	N1030	5 Penny Nails
#12	4	A5000	Side Mold with 2-Way Tape
#13	4	A3510	Top and Bottom Mold with 2-Way Tape
#14	4	W8020	Steel Wheel Assembly
#15	12	S0084	#6 x 3/8 PH SMS Screws
#16	8	G6060	Vinyl Cushion

Congratulations on purchasing your new CW® Wardrobe Doors. Now that you have opened the package, we want you to verify that you have all the necessary hardware supplied with your doors.

PARTS CHECK LIST:

No.	QTY	DESCRIPTION
(#1)	2	Mirrored Glass Panels
(#2)	1	Top Channel
(#3)	1	Bottom Track
(#4)	1	Wood Strip (Located inside of track)
(#5)	6	#8 x 1-1/2 Screws 
(#6)	8	#8 x 3/4 Hex Head Screws 
(#7)	4	#8 x 1/2 Truss Screws 
(#8)	2	Mirror Handles (Attached to back of panels)
(#9)	2	Clear Plastic Bumpers 
(#10)	4	Concrete Nails 
(#11)	4	5 Penny Nails 

If you find that any parts are damaged or missing, refer to the parts list and IPB Drawing and contact Contractors Wardrobe®'s Customer Service Department at (661) 257-1177.

TOOL CHECK LIST

You will need:

- Phillips Screwdriver
- Tape Measure
- Hammer
- Pencil
- 3/8 Drill Motor and 3/16 and 1/8 Drill Bits
- Miter Box and Hacksaw
- Square
- Glass Cutter (For optional mirror fascia)
- Four 1 Screws and Screw Anchors (For ceramic tile floors only. See Floor Check List #5.)
- Adhesive (For ceramic tile floors only. See Floor Check List #5.)

FLOOR CHECK LIST

1. Do you have carpet?

It is highly recommended that if you have carpet and do not have a cut-out in the carpet already, you should cut the carpet in order to install the Bottom Track (#3). We do not recommend installing the Bottom Track (#3) directly on top of carpet.

2. Do you have a concrete, wood floor or ceramic tile floor?

A. If it is a concrete floor, go to 3...

B. If it is a wood floor, go to 4...

C. If it is a ceramic tile floor, go to 5...

3. If you have a concrete floor you will: Use Concrete Nails (#9) to attach Wood Strip (#4) to floor.

4. If you have a wood floor you will: Use 5 Penny Nails (#10) to attach Wood Strip (#4) to wood floor.

5. If you have a ceramic tile floor you will: Drill holes with a 3/16 Masonry Drill Bit. Insert Screw Anchors and attach Wood Strip (#4) to floor with Screws. Or, you may glue the Wood Strip (#4) down with panel Adhesive.

NOTE: Drill Bit, Screws, Screw Anchors and Adhesive are not supplied.

TRACK OFFSET MEASUREMENTS FROM FACE OF OPENING TO FRONT EDGE OF TRACK

Track Offset	A	B
All Ultraglide® track and channel Style Lite® Doors	5/8	1-5/8

INSTALLING THE DOORS

STEP 1 Removing the Existing Doors

Remove existing doors, brackets, top channel and bottom track.

STEP 2 Installing the Top Channel

- Measure the opening at the top of the closet from wall to wall.
- Cut the new Top Channel (#2) to this dimension. When cutting the Top Channel (#2) we recommend that you use a Miter Box and Hacksaw for a straight cut. Cut one side only.

NOTE: If your closet has bumper jambs you may need to notch the Top Channel (#2) on each end.

- When cut to proper length, install Top Channel (#2) up to the top front of closet opening making sure that the front of the Top Channel (#2) is flush with outside walls (See Figure 1). Hold up the Top Channel (#2) in the desired position and with your Pencil, mark where the pre-drilled holes are in the Top Channel (#2).

Figure 1

- Remove the Top Channel (#2) and drill holes using 1/8" Drill Bit where you made the pencil marks. Now install the Top Channel (#2) in place using six #8 x 1-1/2" PH SMS Screws (#5).

STEP 3 Installing the Bottom Track

- Make sure that you have used the FLOOR CHECK LIST to determine which floor and installation you will use.

NOTE: If the floor board molding continues into the closet opening, you may need to remove it so that the Wardrobe Doors will close flush to the wall.

- Locate Wood Strip (#4) supplied in kit and measure inside bottom closet opening and cut to length.
- Find the correct offset measurement using the **Offset Measuring Table** on Page 3 (**B Measurement**) for your particular installation. From the front edge of closet opening inward, measure using dimension from table and make a pencil mark on wall. Do this on both walls, i.e., right and left walls (See Figure 2).

Figure 2

- Place front of Wood Strip (#4) up to pencil mark on wall (See Figure 3). Do this on both sides. Now attach Wood Strip (#4) according to your Offset Measuring Table.
- Cut the Bottom Track (#3) to your measurement of the inside closet opening. Slide the Bottom Track (#3) over Wood Strip (#4) and attach with #8 x 3/4" Hex Head Screws (#6).

Figure 3

STEP 4 Installing the Mirrored Glass Panels

- Make sure you have a pad or blanket to protect the Mirrored Panels (#1) from scratches. Lay Mirrored Panels (#1) with backside up on the floor. Locate one of the Steel Wheel Assemblies (#14) on the bottom of a Mirrored Panel (#1). With a Phillips Screwdriver, turn the adjusting screw to the right to lower the roller. Do this until you have 1" of roller showing. Adjust both Steel Wheel Assemblies (#14) on each Mirrored Panel (#1) (This will avoid scratching the Bottom Track (#3) when installing the Mirrored Panels (#1)).

- B. Pick up one Mirrored Panel (#1) and, with the mirror facing you, tilt the top of the Mirrored Panel (#1) back and slip the Mirrored Panel (#1) into the back runner of the Top Channel (#2). Next, set the bottom of the Mirrored Panel (#1) into the back runner of the Bottom Track (#3).
- C. For the front Mirrored Panel (#1), repeat B, but place the Mirrored Panel (#1) into the front runner of the Top Channel (#2) and front runner of the Bottom Track (#3).

STEP 5 **Adjusting the Panels**

- A. Slide the front Mirrored Panel (#1) to the side closest to the entrance door. Look at the space between the door edge and wall. You want the door edge and wall to be flush. If you see space at the top or bottom edge of the Mirrored Panel (#1), turn the adjusting screw on top of the Steel Wheel Assembly (#14) on the lower back of the Mirrored Panel (#1) nearest the wall. Turn the screw left or right until the Mirrored Panel (#1) is flush with the wall (See Figure 4).

Figure 4

- B. Slide the back Mirrored Panel (#1) to the opposite wall. Adjust the alignment of this panel by turning the adjustment screw on the Steel Wheel Assembly (#14) nearest the wall until the door aligns straight, up and down, with the wall.

STEP 6 **Installing the Clear Plastic Bumpers**

Peel paper off the back of the Clear Plastic Bumpers (#9) and place on the edge of the Mirrored Panel (#1) frame 36 up from the bottom. The Bumpers (#9) will cushion and protect the door and wall when you close the wardrobe doors (See Figure 5).

Figure 5

STEP 7 **Installing the Mirror Handles**

- A. Clean mirror in the area where the Mirror Handles (#8) will be applied. Peel paper off the back of the Mirror Handles (#8). Position each Mirror Handle (#8) 36 from the bottom of the Mirrored Panel (#1) and 1-1/2 from Side Mold (#12) on each Mirrored Panel (#1) (See Figure 5).
- B. If there are **three** Mirrored Panels (#1), place two Mirror Handles (#8) (one on each side of the mirror) on the center Mirrored Panel (#1).

Thank you for purchasing a CW® Wardrobe Door. This is only one of a large line of wardrobe doors and high quality bath enclosure products. If you like this product, please contact Contractors Wardrobe® for more information about our many beautiful bath enclosures available in a vast array of colors and finishes to suit your designing needs.
