

INSTRUCTION MANUAL

Standing Fan

Model: SF-1467

Thank you very much for your purchasing the SUNPENTOWN Stand Fan.
Please read the instructions carefully and keep for future reference.

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this product. Save these instructions for easy reference. When using electrical appliances, basic precautions should always be followed to reduce breakage, risk of fire, electric shock and injury to persons including the following:

- Do not use the fan outdoors.
- Never use the fan unless it is fully assembled.
- Do not use the fan under the following conditions: 1) High temperature of over 104F. 2) High humidity. 3) Steam filled room.
- Do not push finger or any object through the grilles and do not touch the fan blade during use. Be extra cautious when children and infants are around during use.
- Take care that curtains or other objects are not sucked into the fan during operation.
- Do not spray the fan with insecticide, which will damage the housing.
- **WARNING:** The fan has a polarized plug (one blade is wider than the other). To reduce risk of shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. Do not attempt to defeat this safety feature.
- **WARNING:** To reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.
- Unplug from wall outlet before servicing.
- To avoid fire or shock hazard, the Stand Fan should **ONLY** be plugged into a polarized 120 Volt AC outlet.
