Model # TY374+375-1411

ASSEMBLY INSTRUCTIONS

5ft 160 Light LED Elegant PVC Reindeer & 44in 120 Light LED Sleigh

USE AND CARE GUIDE

PLANNING ASSEMBLY

Carefully remove all the parts from the box and place them on a flat surface. Please note that many of the parts are connected by the lighting string that runs throughout the item. Remove the parts with care not to damage the lighting string or parts. Read the entire manual prior to assembly and identify all the parts included in the package against the parts list. If any parts are missing or damaged do not attempt assembly. Contact our customer service center or return the item to place of purchase with purchase receipt. Assembly of this product may require more than one person.

Pre-Operation

CAUTION: Grasp the plug to insert or remove from the power source. Do not unplug by pulling on cord.

CAUTION: The lighting string on this product is rated at 9.6 Watts (0.08Amps) for Reindeer and rated at 7.2 Watts (0.06 Amps) for Sleigh. Do not overload. Do not connect to another lighting string, decorative outfit or other electrical products. Before you use or re-use this product, inspect it carefully. Discard or return to place of purchase with purchase receipt if the product has cuts, damage, frayed wire insulation on cords, cracks in the socket enclosures, loose connections or exposed copper wire.

Care and Cleaning

- Carefully remove the product from wherever it is placed. This helps to avoid any undue strain or stress on the product connections and wires. If the product is placed somewhere other than the ground it should be well secured and stable.
- Wipe the unit with a damp cloth and allow the unit to dry before storing.
- Store the product neatly in a cool, dry location protected from sunlight.

Guarantee

What is Covered

The product is intended for residential seasonal use for 90 days per year. This product is covered by a 90 days limited guarantee due to defects in material and workmanship. Return the product with purchase receipts to the location of purchase for refund within 90 days of purchase.

What is Not Covered

This warranty does not cover commercial use, normal wear and tear, products not used in accordance with directions provided on or with the product, burn out of bulbs or LEDs, batteries, products that have been subjected to unauthorized repair and/or modification and damage caused by shipping and improper handling, alterations, misuse or accidents. Questions, problems, missing parts? Before returning to the store, call Home Accents Holiday Customer Service 8 a.m.-6 p.m., EST, Monday-Friday

ASSEMBLY

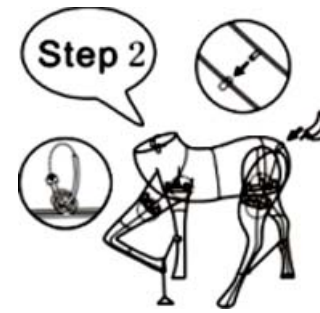

1. Assembling the Legs to the Body

Insert the metal connecting rods attached to each Leg (F&G) into the matching holes on the underside of the Body (D) and fasten them together with Plastic Tie (N). The Legs come with metal bars attached to stabilize the Deer. Insert the hooked end of the metal bars into the metal nut on the opposite Leg.

2. Assembling the Tail to the Body

Insert the connecting rod on the Tail (E) into the connecting hole at the rear of the Body (D).

3. Assembling the Neck and Head to the Body

Insert the connecting rods on the bottom of the Neck (H) into the connecting holes on the front of the Body (D). Insert the connecting rods on the bottom of the Head (A) into the connecting holes at the top of Neck. Fasten all parts together at the connecting loops with Plastic Ties (N).

4. Assembling the Antlers and Ears to the Head

Insert the connecting rods on both the Antlers and Ears (C&B) into the connecting holes on the top of Head. Note: The Ears go to the outside of the Antlers.

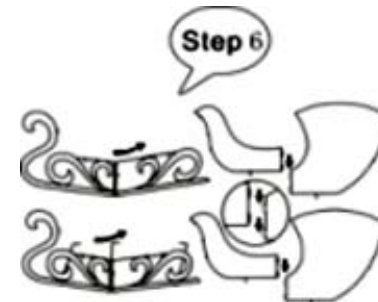

5. Assembling the Bow and Securing the Deer to the Ground

Insert the tie wires on the Bow (L) through the holes of the material on the Sleigh then twist the wires together on the backside to secure. Secure the Deer to the ground with Ground Stake (M).

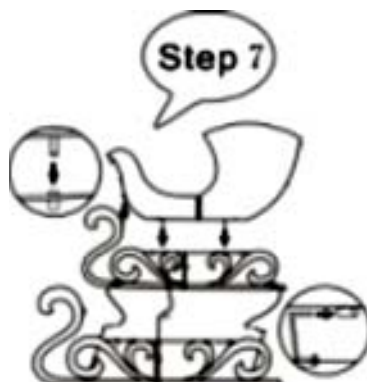

6. Assembling the Runners and Side Panels

Unfold the two Runners (J). Attach the horizontal stabilizing bars on one side of Runners to the opposite side Runner and fasten them with Plastic Tie (N). The Sleigh comes with 4 Side Panels (K). Two Front and two Back. Insert the connecting rods on the Front Side Panels into the matching holes on the Back Side Panels and fasten with Plastic Ties (N).

7. Assembling the Side Panels to the Runners

Insert the connecting rods of the bottom of the Side Panels into the matching holes on the top of the Runners then fasten with Plastic Ties (N).

8. Assembling the Interior Panels (Front, Seat and Back)

Unfold the Interior Panel (I). Insert the connecting rods on the Interior Panel Seat into the connecting holes on the Runners. Insert the connecting rods on the Interior Panel Front and Back into the connecting holes on each side of the Side Panel and fasten with Plastic Ties (N).

9. Attaching the Bow and Securing the Sleigh to the Ground

Insert the wires of the Bow (L) through the material of the Sleigh then twist the wires together to secure. Secure the Sleigh to the ground with Ground Stake (M).
