

Proslat Generic Use and Care Guide

Care & Cleaning for Proslat Wall Panels and Accessories

Easy to clean. Wipe with damp cloth or if you installed an entire wall, simply hose it down.

Panels are not affected by mold, mildew or water so they can be used in damp locations where drywall and wood might absorb the humidity.

If you have any questions **PLEASE CALL: 1-888-691-2944** or EMAIL info@proslat.com
