96801 - GE LED 4-Pin Vertical Plug-in

LED12G24Q-V/827

- ☞ GE's LED plug-in lamps allow you to replace inefficient CFL 4 pin G24q/GX24 without tools or costly upgrades. Simply plug the replacement lamp into the existing ballast.
- ☞ Uses 50% less energy than CFL (12W LED vs. 26W CFL)
- ☞ These lamps are energy efficient, contain no lead or mercury, and meet the material restriction requirements of RoHS
- ☞ For example, using only 12 watts of energy, save over \$71 in energy costs over the rated life of a lamp versus a standard 26-watt CFL lamp based on \$0.11 per kWh
- ☞ Advanced optics eliminate wasted light to deliver a more targeted beam with fewer lumens (950 vs. 1800)
- ☞ Energy efficiency and long life mean fewer lamp replacements versus CFL light sources
