- Mesh-mounted glass and stone mosaic tiles are easier to install than traditional tile formats. Can be used as whole sheets, or cut to make inexpensive feature strips.
- Easy handling and installation of tile. Cuts installation time vs. installing individual pieces.
- Blending from several boxes during installation is recommended.
- Penetrating sealers recommended before grouting. Recommend white “polymer-modified” thin set and non-sanded grout for best installation results. Sealing natural stone tiles is highly recommended. Use a high quality sealer prior to grouting to facilitate cleaning. Follow manufacturer recommendations for reapplication as part of an ongoing maintenance routine.
