

UNIQUELY BLUNT SAFETY BLADE

Blendtec blades are made of cold-forged hardened steel, and up to 80% thicker and 10 times stronger than typical thin, sharp blades. Our large, blunt design pulverizes even the toughest ingredients, like ice, frozen fruit, and raw veggies, with ease. This is just one of the many innovations that set Blendtec apart.

blendtec®

THE WORLD'S MOST **ADVANCED** BLENDER™
