

CG1000

CG1000 CargoGlide is perfect for a pickup truck, allowing our customers to access their equipment and supplies faster, safer, and easier which makes their work day more productive.

CG1500XL

CG1500XL Commercial & Industrial fleet trucks and truck body manufacture's know & trust CargoGlides sliding tray systems as the toughest, longest lasting delivery system on the market today to improve employee efficiency and safety.

CG1500XL

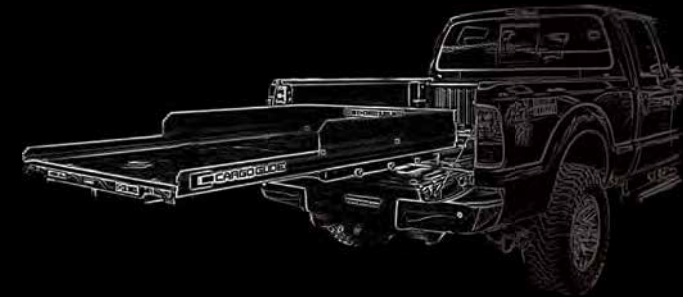

CG1500XL Commercial van applications are a CargoGlide specialty. Dual glides slide out both side doors or our 100% extension out the back of a van. Companies and their work force, realize the savings in efficiency and safety every time they don't have to step inside and climb out of their work van. CargoGlide is the efficiency and safety standard.

CG2200XL

CG2200XL Topper & DCU manufacturers rely on CargoGlides' consistent delivery of material and goods from inside the vehicle outside where they can grab and go to work, safer and more efficiently. Our product quality and mechanism reliability equals trust. Our customers know our product works day in and day out, backed with confidence by our limited lifetime warranty.
