### **SECTION 2. HAZARDS IDENTIFICATION**

#### **Emergency Overview**

Form : Liquefied gas

Color : colourless

Odor : weak

#### Classification of the substance or mixture

Classification of the : Gases under pressure, Liquefied gas

substance or mixture Simple Asphyxiant

#### GHS Label elements, including precautionary statements

Page 1 / 13

### **R134A**

Version 2.6 Revision Date 06/06/2014 Print Date 02/14/2016

Symbol(s)

 $\Diamond$ 

Signal word : Warning

Hazard statements : Contains gas under pressure; may explode if heated.

May displace oxygen and cause rapid suffocation.

Precautionary statements : Storage:

Protect from sunlight. Store in a well-ventilated place.

Hazards not otherwise

classified

: May cause cardiac arrhythmia.

May cause frostbite.

#### Carcinogenicity

No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP, IARC, or OSHA.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Formula : CF3CH2F

Chemical nature : Substance

Chemical Name	CAS-No.	Concentration
1,1,1,2-Tetrafluoroethane	811-97-2	99.80 %

### **SECTION 4. FIRST AID MEASURES**

Inhalation : Move to fresh air. If breathing is irregular or stopped,

administer artificial respiration. Use oxygen as required, provided a qualified operator is present. Call a physician. Do

not give drugs from adrenaline-ephedrine group.

Page 2 / 13

### **R134A**

Version 2.6 Revision Date 06/06/2014 Print Date 02/14/2016

Skin contact : After contact with skin, wash immediately with plenty of water.

If there is evidence of frostbite, bathe (do not rub) with

lukewarm (not hot) water. If water is not available, cover with a clean, soft cloth or similar covering. If symptoms persist, call a

physician.

Eye contact : Rinse immediately with plenty of water, also under the eyelids,

for at least 15 minutes. In case of frostbite water should be lukewarm, not hot. If symptoms persist, call a physician.

Ingestion : Unlikely route of exposure. As this product is a gas, refer to the

inhalation section. Do not induce vomiting without medical

advice. Call a physician immediately.

Notes to physician

Treatment : Because of the possible disturbances of cardiac rhythm,

catecholamine drugs, such as epinephrine, should be used with special caution and only in situations of emergency life support. Treatment of overexposure should be directed at the control of symptoms and the clinical conditions. Treat frost-

bitten areas as needed.

#### **SECTION 5. FIREFIGHTING MEASURES**

Suitable extinguishing media : The product is not flammable.

Use water spray, alcohol-resistant foam, dry chemical or

carbon dioxide.

Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

Specific hazards during

firefighting

: Contents under pressure.

This product is not flammable at ambient temperatures and

atmospheric pressure.

However, this material can ignite when mixed with air under

pressure and exposed to strong ignition sources.

Container may rupture on heating.

Cool closed containers exposed to fire with water spray. Do not allow run-off from fire fighting to enter drains or water

courses.

Vapours are heavier than air and can cause suffocation by

reducing oxygen available for breathing.

### **R134A**

Version 2.6 Revision Date 06/06/2014 Print Date 02/14/2016

In case of fire hazardous decomposition products may

be produced such as: Hydrogen halides Hydrogen fluoride Carbon monoxide Carbon dioxide (CO2) Carbonyl halides

Special protective equipment for firefighters

: In the event of fire and/or explosion do not breathe fumes. Wear self-contained breathing apparatus and protective

suit. No unprotected exposed skin areas.

#### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions : Immediately evacuate personnel to safe areas.

Keep people away from and upwind of spill/leak. Wear personal protective equipment. Unprotected

persons must be kept away. Remove all sources of ignition.

Avoid skin contact with leaking liquid (danger of frostbite).

Ventilate the area.

After release, disperses into the air.

Vapours are heavier than air and can cause suffocation

by reducing oxygen available for breathing. Avoid accumulation of vapours in low areas.

Unprotected personnel should not return until air has been

tested and determined safe.

Ensure that the oxygen content is  $\geq$  19.5%.

Environmental precautions : Prevent further leakage or spillage if safe to do so.

The product evapourates readily.

Methods for cleaning up : Ventilate the area.

#### **SECTION 7. HANDLING AND STORAGE**

Handling

Handling : Handle with care.

Avoid inhalation of vapour or mist.

Page 4 / 13

### **R134A**

Version 2.6 Revision Date 06/06/2014 Print Date 02/14/2016

Do not get in eyes, on skin, or on clothing.

Wear personal protective equipment. Use only in well-ventilated areas.

Pressurized container. Protect from sunlight and do not expose

to temperatures exceeding 50 °C.

Follow all standard safety precautions for handling and use of

compressed gas cylinders.
Use authorized cylinders only.

Protect cylinders from physical damage.

Do not puncture or drop cylinders, expose them to open flame

or excessive heat.

Do not pierce or burn, even after use. Do not spray on a naked

flame or any incandescent material.

Do not remove screw cap until immediately ready for use.

Always replace cap after use.

Advice on protection against fire and explosion

The product is not flammable.

Can form a combustible mixture with air at pressures above

atmospheric pressure.

#### Storage

Requirements for storage areas and containers

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even

after use.

Keep containers tightly closed in a dry, cool and well-ventilated

place.

Storage rooms must be properly ventilated.

Ensure adequate ventilation, especially in confined areas.

Protect cylinders from physical damage.

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Protective measures : Do not breathe vapour.

Avoid contact with skin, eyes and clothing.

Ensure that eyewash stations and safety showers are close to

the workstation location.

Engineering measures : General room ventilation is adequate for storage and handling.

Perform filling operations only at stations with exhaust

ventilation facilities.

Page 5 / 13

### **R134A**

Version 2.6 Revision Date 06/06/2014 Print Date 02/14/2016

Eye protection : Wear as appropriate:

Safety glasses with side-shields If splashes are likely to occur, wear:

Goggles or face shield, giving complete protection to eyes

Hand protection : Leather gloves

In case of contact through splashing:

Protective gloves Neoprene gloves

Polyvinyl alcohol or nitrile- butyl-rubber gloves

Skin and body protection : Avoid skin contact with leaking liquid (danger of frostbite).

Wear cold insulating gloves/ face shield/ eye protection.

Respiratory protection : In case of insufficient ventilation, wear suitable respiratory

equipment.

Wear a positive-pressure supplied-air respirator.

Vapours are heavier than air and can cause suffocation by

reducing oxygen available for breathing.

For rescue and maintenance work in storage tanks use self-

contained breathing apparatus.

Hygiene measures : Handle in accordance with good industrial hygiene and safety

practice.

Ensure adequate ventilation, especially in confined areas.

Avoid contact with skin, eyes and clothing.

Remove and wash contaminated clothing before re-use.

Keep working clothes separately.

### **Exposure Guidelines**

#### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state : Liquefied gas

Color : colourless

Odor : weak

pH : Note: neutral

Melting point/freezing point : -101 °C

Boiling point/boiling range : -26.2 °C

Flash point : Note: not applicable

Evaporation rate : > 1

Method: Compared to CCl4.

Lower explosion limit : Note: None

Upper explosion limit : Note: None

Vapor pressure : 5,915 hPa

at 21.1 °C(70.0 °F) 14,713 hPa

at 54.4 °C(129.9 °F)

Vapor density : 3.5

Density : 1.2 g/cm3

Water solubility : 1.5 g/l

Page 7 / 13

### **R134A**

Partition coefficient: n-

octanol/water

: log Pow: 1.06

Note: The product is more soluble in octanol.

: > 750 °C Ignition temperature

: > 750 °C Auto-ignition temperature

Decomposition temperature : > 250 °C

Note: To avoid thermal decomposition, do not overheat.

Molecular weight : 102.02 g/mol

Global warming potential

(GWP)

Ozone depletion potential

(ODP)

: 1,300

: 0

#### **SECTION 10. STABILITY AND REACTIVITY**

Chemical stability : Stable under normal conditions.

Possibility of hazardous

reactions

: Hazardous polymerisation does not occur.

Conditions to avoid : Pressurized container. Protect from sunlight and do not

> expose to temperatures exceeding 50 °C. Decomposes under high temperature.

Some risk may be expected of corrosive and toxic

decomposition products.

Can form a combustible mixture with air at pressures above

atmospheric pressure.

Do not mix with oxygen or air above atmospheric pressure.

Incompatible materials to

avoid

: Potassium Calcium

Powdered metals

Finely divided aluminium

Magnesium

Zinc

Page 8 / 13

Hazardous decomposition

products

: Halogenated compounds

Hydrogen fluoride Carbonyl halides Carbon oxides

#### SECTION 11. TOXICOLOGICAL INFORMATION

Acute inhalation toxicity : LC50: > 500000 ppm

Exposure time: 4 h

Species: rat

Sensitisation : Cardiac sensitization

Species: dogs

Note: No-observed-effect level 50 000 ppm Lowest

observable effect level 75 000 ppm

Repeated dose toxicity : Species: rat

NOEL: 40000 ppm

Genotoxicity in vitro : Note: In vitro tests did not show mutagenic effects

Further information : Note: Vapours are heavier than air and can cause suffocation

by reducing oxygen available for breathing. Rapid

evapouration of the liquid may cause frostbite. Avoid skin

contact with leaking liquid (danger of frostbite).

#### **SECTION 12. ECOLOGICAL INFORMATION**

#### Further information on ecology

Additional ecological

information

: Accumulation in aquatic organisms is unlikely.
This product contains greenhouse gases which may

contribute to global warming. Do NOT vent to the atmosphere.

To comply with provisions of the U.S. Clean Air Act, any

residual must be recovered.

Page 9 / 13

#### **SECTION 13. DISPOSAL CONSIDERATIONS**

Disposal methods : Observe all Federal, State, and Local Environmental

regulations.

Note : This product is subject to U.S. Environmental Protection

2.2

Agency Clean Air Act Regulations Section 608 in 40 CFR Part

82 regarding refrigerant recycling.

#### **SECTION 14. TRANSPORT INFORMATION**
