## Material Safety Data Sheet

### Section 1 - Chemical Product and Company Identification

**Product Name:** LR03 AAA SIZE ALKALINE BATTERY 1.5V ( LR03 AM4 AAA 1.5V)

**Sample Code:** LR03 AM4 AAA 1.5V

**Manufacture:** DONGGUAN CITY LIWANG BATTERY CO., LTD.

**Address:** Shima Village, Tangxia Town, Dongguan City, Guangdong Province, China.

**Post Code:** 523731

**Tel:** +86-0769-86201111

**Emergency Telephone:** +86-0769-86201111

**Fax:** +86-0769-87887512

**E-mail:** [leokwok@liwangbattery.com](mailto:leokwok@liwangbattery.com)

### Section 2 - Composition/Information on Ingredient

Chemical Name	Formula	CAS No.	EINECS No.	In % by Weight
Manganese Dioxide	MnO <sub>2</sub>	1313-13-9	215-202-6	40
Zinc	Zn	7440-66-6	231-175-3	16
Potassium hydroxide (liquid)	KOH	1310-58-3	215-181-3	18
Lead	Pb	7439-92-1	231-100-4	<0.0003
Mercury	Hg	7439-97-6	231-106-7	<0.0001
Cadmium	Cd	7440-43-9	231-152-8	<0.0003

### Section 3 - Hazards Identification

Reference as follow if contact Potassium hydroxide.

Report in electronic version is only for client's preview and reference.  
For confirmative content, formal test report shall prevail.

#### **Eye**

Causes severe eye burns. May cause irreversible eye injury. Contact may cause ulcerations of the conjunctiva and cornea. Eye damage may be delayed.

#### **Skin**

Causes skin burns. May cause deep, penetrating ulcers of the skin.

#### **Inhalation**

Irritation may lead to chemical pneumonitis and pulmonary edema. Causes severe irritation of upper respiratory tract with coughing, burns, breathing difficulty, and possible coma.

#### **Ingestion**

Harmful if swallowed.

#### **Health Hazards (Acute and Chronic)**

These chemicals are contained in a sealed can. Risk of exposure occurs only if the battery is mechanically or electrically abused. The most likely risk is acute exposure when a battery vents.

#### **Sign/Symptoms of Exposure**

A shorted battery can cause thermal and chemical burns upon contact with the skin. May be a reproductive hazard.

### **Section 4 - First Aid Measures**

#### **Eye**

Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.

#### **Skin**

Get medical aid at once. Immediately remove contaminated clothes and rinse skin with plenty of water or shower for 15 minutes. Discard contaminated clothing in a manner which limits further exposure.

#### **Inhalation**

Get medical aid immediately. Remove from exposure and move to fresh air immediately. Use oxygen if available. Use oxygen device such as mask or bag.

#### **Ingestion**

Do not induce vomiting. Get medical aid immediately.

#### **Note to Physician**

May be toxic to the body. Wash out the solution with water promptly in an

emergency. Treat symptomatically and supportively.

## Section 5 - Fire Fighting Measures

### Extinguishing Media

Water, CO<sub>2</sub>, dry chemical.

### Firefighting

In case of fire in an adjacent area, use water, CO<sub>2</sub> or dry chemical extinguishers if the battery in their original containers since the fuel of the fire is basically paper products. For bulk quantities of unpackaged batteries use suitable extinguishers. In this case, do not use water.

## Section 6 - Accidental Release Measures

### Steps to be Taken in case Material is Released or Spilled

If the battery is accidentally broken and electrolyte leaks out, wipe it up with a cloth, and dispose of it in a plastic bag and put into a steel can.

The preferred response is to leave the area and allow the battery to cool and vapors to dissipate. Provide maximum ventilation. Avoid skin and eye contact or inhalation of vapors. Remove spilled liquid with absorbent and incinerate.

### Waste Disposal Method

It is recommended to discharge the battery to the end, handing in the abandoned battery to related department unify, dispose of the batteries in accordance with approved local, state, and federal requirements. Consult state environmental agency and/or federal EPA.

## Section 7 - Handling and Storage

Do not charge. The batteries should not be opened, destroyed or incinerate, since they may leak or rupture and release to the environment the ingredients that they contain in the hermetically sealed container.

Do not short circuit terminals, or charge the battery, forced over-discharge, throw to fire. Do not crush or puncture the battery, or immerse in liquids.

### Precautions to be taken in handling and storing

Avoid mechanical or electrical abuse. Storage preferably in cool, dry and

ventilated area, which is subject to little temperature change. Do not place the battery near heating equipment, nor expose to direct sunlight for long periods.

#### **Other Precautions**

Batteries may explode or cause burns, if disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.

### **Section 8 - Exposure Controls, Personal Protection**

#### **Respiratory Protection**

In case of battery venting, provide as much ventilation as possible. Avoid confined areas with venting batteries. Respiratory Protection is not necessary under conditions of normal use.

#### **Ventilation**

Not necessary under conditions of normal use.

#### **Protective Gloves**

Not necessary under conditions of normal use.

#### **Other Protective Clothing or Equipment**

Not necessary under conditions of normal use.

#### **Personal Protection is recommended for venting batteries**

Respiratory Protection, Protective Gloves, Protective Clothing and Safety Glass with side shields.

### **Section 9 - Physical and Chemical Properties**

**Nominal Voltage:** 1.5V

**Appearance characters:** Blue and black with odorless columned solid.

**Chemical uses:** One-time power for electrical appliances.

### **Section 10 - Stability and Reactivity**

#### **Stability**

Stable

#### **Conditions to Avoid**

Elevated temperatures fire and ignition sources, mechanical abuse and

electrical abuse.

#### **Hazardous Decomposition Products**

N/A.

### **Section 11 - Toxicological Information**

Inhalation, skin contact and eye contact are possible when the battery is opened. Exposure to internal contents, the corrosive fumes will be irritation to skin, eyes and mucous membranes. Overexposure can cause symptoms of non-fibrotic lung injury and membrane irritation.

### **Section 12 - Ecological Information**

When promptly used or disposed the battery does not present severe environmental hazard. When disposed, keep away from water, rain and snow.

### **Section 13 - Disposal Considerations**

#### **Appropriate Method of Disposal of Substance or Preparation**

Dispose of the battery in accordance with approved local, state, and federal requirements. Consult state environmental agency and/or federal EPA.

### **Section 14 - Transport Information**

These batteries are exempt from dangerous goods. They are considered non-dangerous goods by the ICAO, IATA, DOT, and IMDG.

Separate alkaline batteries when shipping to prevent short-circuiting. They should be packed in strong packaging for support during transport. Take in a cargo of them without falling, dropping, and breakage. Prevent collapse of cargo piles and wet by rain. The container must be handled carefully. Do not give shocks that result in a mark of hitting on a cell. Please refer to Section 7-HANDLING AND STORAGE also.

**Transport Fashion:** By air, by sea, by railway, by highway.

Report in electronic version is only for client's preview and reference. For confirmative content, formal test report shall prevail.

## Section 15 - Regulatory Information

### Law Information

《Dangerous Goods Regulation》  
《Recommendations on the Transport of Dangerous Goods Model Regulations》  
《International Maritime Dangerous Goods Code》  
《Technical Instructions for the Safe Transport of Dangerous Goods》  
《Classification and code of dangerous goods》  
OSHA Hazard Communication Standard Status  
Toxic Substances Control Act (TSCA) Status  
SARA Title III  
RCRA  
California Proposition 65  
In accordance with all Federal, State and Local laws.

## Section 16 - Additional Information

The above information is based on the data of which we are aware and is believed to be correct as of the data hereof. Since this information may be applied under conditions beyond our control and with which may be unfamiliar and since data made available subsequent to the data hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose.

MSDS Creation Date: March 08, 2010

Report in electronic version is only for client's preview and reference. For confirmative content, formal test report shall prevail.

PONY assures objectivity and justice of the test, and fulfill the duty of confidentiality for applicant's information. Applicant should undertake responsibility for the authenticity of submitted sample and information. Unless otherwise stated the results shown in the report refer only to the sample(s) tested. PONY shall not have any economic and legal responsibility because the use of testing result, or direct and indirect losses, and all legal consequences because of the result. This report is invalid without signatures of approver and special seal for inspection of PONY, or it has been reproduced in full or part. This Report is issued by PONY subject to its General Conditions of Service. Any unauthorized alteration, forgery or falsification of the content is unlawful, offenders may be prosecuted to the fullest extent of the law.

Warning for Anti-Counterfeit

- "PONY Test Report" has exclusive report code, namely, each code corresponds with only one "Test Report".
- "PONY Test Report" is printed by anti-copying paper whose surface shows "PONY" security print with specific anti-counterfeiting technique. Security print will disappear after copying.
- Duplicate are not expected to give "PONY" security print under any circumstances.
- "PONY Test Report" uses anti-counterfeiting paper with watermarks which shall show colorless fluorescent "PONY" mark under ultraviolet radiation, e.g. a UV counterfeit money detector.
