

## **Product Details**

**Product Number:** N1027256

**Weight:** 44 lbs

## **Product Description**

In the 1800s, gaslights were manufactured from cast iron with detailed base patterns and fluted posts. We have taken the same care with the design of our Beaumont 1812 Series. This attractive and durable residential mailbox feature a single-body construction to ensure contents are protected from the elements.

The Beaumont

Built to hold one mailbox of either the medium rural style or the 1812 style - mailboxes sold separately.

- 4" steel reinforced polycast polyethylene post at 85" tall with a detailed 13" base
- Steel components are protected with a durable, long lasting powder coat finish
- One "Sunday size" newspaper tube
- One address scroll for vinyl numbering
- Prepared for direct burial installation
