- 1 WARM:** This pad lowers selected active element to the lowest setting.
- 2 POWER ON/OFF:** Touch the POWER ON/OFF pad to turn the entire cooktop ON and OFF. When it is ON, the cooktop is in standby mode until a Cooking Zone is activated.
- 3 CHILD LOCK:** Touch and hold for 3 seconds to activate and deactivate the child lockout function.

To set the element power level: Select the number on the element power settings for the active Cooking Zone to adjust the power level from 1 to 9.

Hot Surface Indicator: The indicator light below the HOT will illuminate when the cooking area is hot. It will remain on, even after the control is turned off, until the area has cooled.
