

6" & 9" HEADER SIDING MOUNT

The header siding mount is used to provide a solid mounting surface for the decorative headers. The mount is easily screwed or nailed to the sheathing prior to siding. The decorative header is applied to the face of the mount using screws or shutter locks. 6" version can also be used with the pilaster for a siding mount door surround.

Available for all length window headers from 12" up to 240".

FEATURES:

- Available in popular colors.
- Paintable version available.
- Maintenance Free.
- Installs fast and easy.
- 6" available in one piece 90" length or custom cut to match header
- 9" available in one piece 73 5/8" length or custom cut to match header.
