

## **Rubber Plant Care** *Ficus elastica*

### Light

Prefers bright indirect sunlight

### Water

Keep the soil moist but well drained.

### Temperature

Can tolerate temperatures as low as 50 degrees Fahrenheit but prefers temperatures between 60°F to 75°F.

### Pruning

Prune as needed to control growth.

### Feeding

Feed three times per year - in spring, summer and fall with a general-purpose fertilizer as directed.
