

OPERATING INSTRUCTIONS

- 1 Push down on the platform
(wheels will automatically unfold)
- 2 Apply firm pressure to the Safety Release Button and extend handle to one of 4x height options
- 3 Apply firm pressure to the Safety Release Button and lower handle until you hear it click into place
- 4 Fold the platform securely to the frame
(wheels will automatically fold)

CAUTION: For your safety, do not exceed the load weight of 200lbs/90.7kg

Do not load goods when cart is inclined

Be sure no one is beneath you on stairs

Cart will accelerate down stairs under heavy load

Never let go of cart when on stairs

Be sure to secure the load to the frame

Moving Up Stairs

- Hold handle securely
- Incline cart to balance load
- Pull behind as you walk

Moving Down Stairs

- Hold handle securely with cart in front
- Follow cart down stairs
- **NOTE:** You must control rate of descent

Maneuvering Cart

- Incline cart before maneuvering cart
- Make wide arching turns when possible
- Make tight turns by 'dragging' wheels – wheel hubs are designed to flex
