

Installation

Follow these simple steps to install your rails and grids. The Walltech patented system makes it quick and easy.

TOOLS REQUIRED:

- Drill
- Stud Finder
- Pencil
- Tape measure

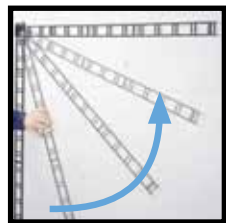

- Fasteners (See packaging for details)

Rail System

- 1 Find stud. Position rail 1 and screw in place. Do not tighten.

- 2 Using rail 1 as a guide, swing it across.

- 3 Mark using magnetic level supplied.

- 4 Fix rail 2 in place.

- 5 Attach shelf supplied to mid way down both rails. This will give correct distance at bottom of rails.

- 6 Tighten all screws and secure.

Grid System

- 1 Find stud. Screw into top Center hole. Position grid in place plumb.

- 2 Use the magnetic level supplied to square up the grid.

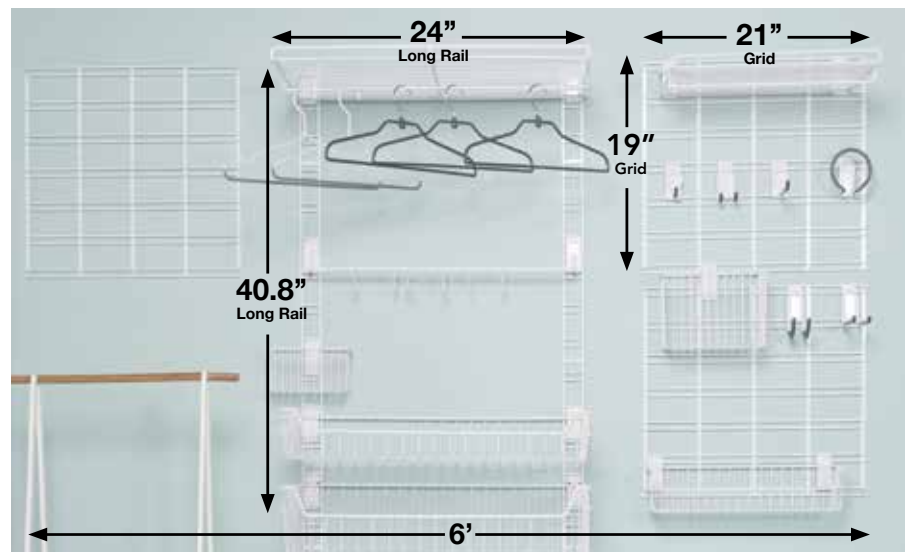

- 3 Screw into all the holes of the grid and tighten for additional security.

- 4 Clip on the accessories.
