**Plantation
Faux Wood
Interior Shutters**

1. Measure your window and select proper size shutter

Measure the inside width of the window opening in three places; top, middle and bottom. Record the widest measurement.

Measure the inside height of the window opening in three places; left, middle and right. Record the longest measurement.

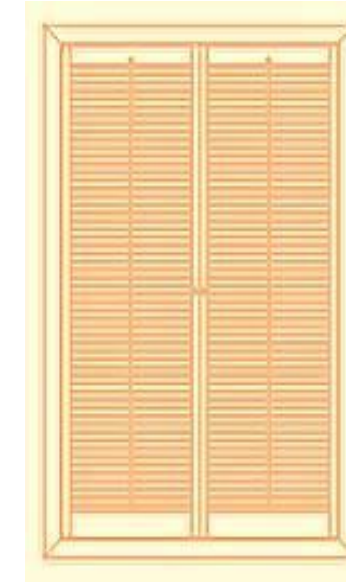

Using the chart below, select the shutter size that best matches your recorded measurements.

2. Choose Your Shutter Style/Configuration

Single Hung

A single shutter length covers the entire height of the window opening.

Café

The height of the shutter is less than the full height of the window opening.

HOMEbasics®

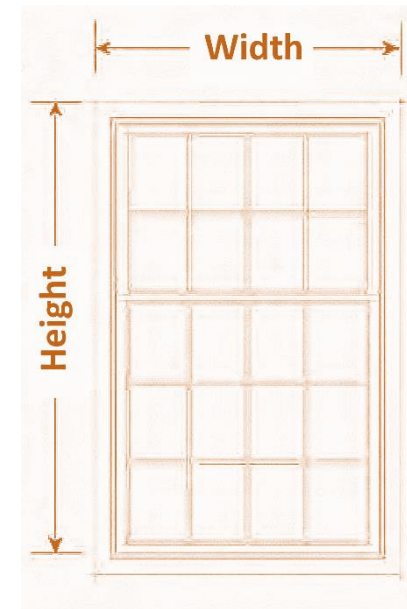

**Plantation
Faux Wood
Interior Shutters**

1. Measure your window and select proper size shutter

Measure the width from point to point on your molding or wall where our frame will be hung (a minimum of 3/4 in. flat space is needed at the point on your molding or wall where the frame will be hung.)

Measure the height from point to point on your molding or wall where our frame will be hung. If you have a window sill, measure from the top of the sill to the point on your molding or wall where the frame will be hung (a minimum of 3/4 in. flat space is needed at the point on your molding or wall where the frame will be hung.)

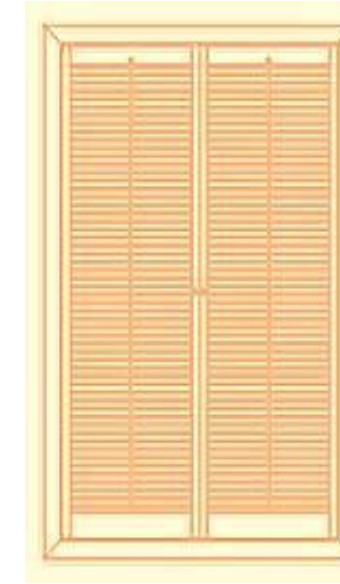

Using the chart below, select the shutter size that best matches your recorded measurements.

2. Choose Your Shutter Style/Configuration

Single Hung

A single shutter length covers the entire height of the window opening.

Café

The height of the shutter is less than the full height of the window opening.
