

Red Cantilever Umbrella

RED CANTILEVER UMBRELLA

The CANTILEVER-RED is a Red Cantilever Umbrella that provides a unique shade option for your patio or deck area. Rather than placing the pole in the center of a table, this offset umbrella stands on its own with the help of the Cantilever base (sold separately). This umbrella features an 11 ft. canopy that provides up to 95 sq. ft. of shade. The deluxe, all-weather olefin fabric is both fade and water resistant. The aluminum pole and ribs are naturally rust-resistant and can easily reposition with two tilt pivots located on the pole. A crank lever is available for a seamless opening/closing operation. With this lever, the pole can raise the canopy up to 13 ft. high or can extend out to 12.6 ft. With the ability to offer a variety of configurations, this Cantilever is ideal for your outdoor living environment.
