

For best results: The Melnor 2-piece Brass Quick Connect Starter Set was made to make your life easier!

Constructed of solid brass, the faucet adapter and faucet end hose connector can save you time and frustration. Simply screw the faucet end connector into your hose bib (faucet) then screw the hose end connector into your garden hose. When you're ready to use the hose quickly pop into place on the faucet and start watering. No more struggling to disconnect, your hose will easily detach when you're done by sliding the large center band toward your hose.
