Safety Information

To reduce the risk of serious injury, read and follow the safety instructions below before assembling and using this product.

- ❑ This product is intended for indoor use only.
- ❑ This product is not designed for commercial nor industrial usage.

CAUTION: Use at least two people to move, assemble or install this product. Failure to do so can result in personal injury or product damage.

WARNING: Keep the product on level surfaces. The product could become unstable and it may tip over if stored or moved on an uneven surface, which may cause personal injury, death or product damage.

CAUTION: DO NOT alter this product in any manner. For example, do not weld external bar locks or attach electrical and lock equipment. This may cause product damage or personal injury.

WARNING: Any assembly or maintenance of the product must be carried out by adults only.

CAUTION: Check all nuts and bolts periodically for tightness. When required, tighten them again.

WARNING: Wear safety glasses when removing or repositioning the slides. The tool could slip, causing personal injury. Close and lock the drawers before moving the cabinet.

CAUTION: DO NOT leave children unattended near this product. Cabinet may tip over if improperly opened.

WARNING: DO NOT stand on the product or lean on the drawers or wood top.

Warranty

1 year Limited Warranty for Solid Wood top. This warranty excludes incidental/inconsequential damages and failures due to misuse, abuse or normal wear and tear.

This full warranty gives you specific rights, and you may also have other rights, which vary state to state.

Contact the customer service team at 1-888-HD-HUSKY or visit www.huskytools.com.

Specifications

Maximum load for drawer	50 lbs. / 22.7 kg
Maximum load for wood top	100 lbs. / 45.4 kg
Maximum load for shelf	100 lbs. / 45.4 kg
Maximum load for bottom panel	100 lbs. / 45.4 kg
Maximum total load	350 lbs. / 158.9 kg

Pre-Assembly

TOOLS REQUIRED

Hex Wrench
(Hex Key)

Drill
(not included)

Safety Goggles
(not included)

Hex Screwdriver Bit

Gloves
(not included)

HARDWARE INCLUDED

NOTE: Hardware not shown to actual size.

Part	Description	Quantity
AA	M6 x 16 hex socket head screw	16
BB	Adjustable foot	4
CC	Shelf bracket	4

Pre-Assembly

PACKAGE CONTENTS

Part	Description	Quantity
A	Base cabinet	1
B	Shelf	1

Assembly

NOTE: Assemble on a flat surface. A piece of cardboard is recommended to keep the product from being scratched during assembly.

CAUTION: Please wear gloves during the whole assembling process.

INSTALL THE ADJUSTABLE FEET

- Install the adjustable feet (BB) to the cabinet bottom. Make sure side A of the adjustable feet (BB) are facing either towards the back or the front of the cabinet.
- Tighten securely with sixteen M6 x 16 hex socket head screws (AA).

Assembly (continued)

INSTALL THE SHELF

Insert four shelf brackets (CC) into the slots on the side panels at the desired height. Make sure the four brackets (CC) are at the same height. Place the shelf (B) over the shelf brackets (CC), and push it down onto the shelf brackets. Make sure the shelf (B) is properly and safely locked by the upright hooks of the shelf brackets.

Maintenance

- Lubricate the slides semi-annually with a spray lubricant or light duty oil.
- Check all the screws and nuts periodically for tightness. Tighten them when necessary.

Care and Cleaning

- Clean the cabinet surfaces and drawers periodically with a soft rag and water.
- Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

Drawer Removal

- Pull the drawer out until it is extended to the maximum. There are two black release levers: one on each side of the drawer.
- Pull one up while you push the other one down simultaneously. At the same time, pull the drawer out of the drawer slides.

Pull up
(on one side of the drawer)

Push down
(on the other side of the drawer)

Drawer Replacement

Extend the drawer slides from the cabinet. Insert the brackets on each side of the drawer into the slots in the cabinet slides, being careful that they are properly positioned. Once properly inserted, completely close the drawer to set the slides in their proper positions.

Door Replacement

DOOR REMOVAL

- Pull the upper locking tab of the door outward until the door pin is unlocked by it.
- Take out the door pin from the door.
- Lift up the door and take out the door from the cabinet.
- Pull the bottom locking tab of the door outward and take out the door pin and rubber ring.

Door Replacement (continued)

DOOR INSTALLATION

- Lay down the door on its face with a soft mat underneath. Pull the bottom locking tab at the bottom corner of the door outwards. Insert a door pin through the hole at the door's bottom corner and put a rubber ring into the pin's vertical end.
- Push back the bottom locking tab to its place. Insert the horizontal end of the pin into the hole at the locking tab at the same time.
- Take up the door and insert the door pin into the hole at the bottom corner of the cabinet.
- Pull the upper locking tab at the top corner of the door outwards. Insert a door pin through the hole at door's top corner into the hole at the top corner of the cabinet.
- Push back the upper locking tab to its place. Insert the horizontal end of the pin into the hole at the locking tab at the same time.

CAUTION: When you push the locking tab back to its place, make sure the end of the door pin's horizontal part is inserted into the hole of the locking tab to ensure the door pin is securely in place.

Pre-Installation

TOOLS REQUIRED

Hex Wrench
(Hex Key)

Drill
(not included)

Hex Screwdriver Bit

Gloves
(not included)

HARDWARE INCLUDED

NOTE: Screws shown to actual size.

Part	Description	Quantity
AA	M6 x 16 hex socket head screw	48
BB	Adjustable foot	4
CC	Shelf bracket	4
DD	M6 x 16 hex socket head cap screw	2

Pre-Installation (continued)

PACKAGE CONTENTS

Part	Description	Quantity
A	Solid wood top	1
B	Left side panel	1
C	Front top beam	1
D	Left door	1
E	Shelf	1

Part	Description	Quantity
F	Right door	1
G	Bottom panel	1
H	Right side panel	1
I	Back panel	2
J	Back top beam	1

Assembly

NOTE: Assemble on a flat surface. A piece of cardboard is recommended to keep the product from being scratched during assembly.

Please wear gloves during the whole assembling process.

1 INSTALL THE ADJUSTABLE FEET

Install the adjustable feet (BB) to the bottom panel (G). Make sure the sides A of the adjustable feet are facing either towards the back or the front of the cabinet. Tighten securely with sixteen M6 x 16 hex socket head screws (AA).

2 ATTACH THE SIDE AND BOTTOM PANELS

Two M6 x 16 hex socket head cap screws (DD) (security screws) should be fixed to the left bottom face of cabinet for additional door security.

Attach the side panels (B & H) to the bottom panel (G) with two M6 x 16 hex socket head cap screws (DD) (security screws) and six M6 x 16 hex socket head screws (AA).

Assembly (continued)

3 ATTACH THE TOP BEAMS

- Attach the front top beam (C) to the side panels (B & H) with six M6 x 16 hex socket head screws (AA). Insert the screws by hand. DO NOT tighten.
- Attach the back top beam (J) to the side panels (B & H) with two M6 x 16 hex socket head screws (AA). Insert the screws by hand. DO NOT tighten.

4 ATTACH THE BACK PANELS

Make sure your floor is free of debris or the cabinet face is protected before laying the cabinet on its face.

The top edge of the top back panel should be inserted under the back of the back top beam.

- Lay the cabinet on its face.
- Attach the back panels (I) to the back of the cabinet with fourteen M6 x 16 hex socket head screws (AA). Insert the screws by hand. DO NOT tighten.

5 ATTACH THE SOLID WOOD TOP

- Attach the wood top (A) to the cabinet top by inserting four M6 x 16 hex socket head screws (AA) through the pre-drilled holes underneath the top beams (C & J) to the wood top (A). Tighten securely.

6 ATTACH THE DOORS

- Insert the pins from the hinges on the left door (D) into the slots of the bottom hinges at the front of the left side panel (B).
- Repeat the same procedure to attach the right door (F).
- Close the doors to see if the doors can touch the magnets completely. If not, adjust the cabinet's top and side panels to make sure the shape of the cabinet is square and flush. Until the doors can catch the magnets completely, tighten the top beams' and back panels' screws.

Assembly (continued)

7 INSTALL THE SHELF

- Insert four shelf brackets (CC) into the slots on the side panels at the desired height. Make sure the four brackets (CC) are at the same height. Place the shelf (E) over the shelf brackets (CC), and push it down onto the shelf brackets. Make sure the shelf (E) is properly and safely locked by the upright hooks of the shelf brackets.

Maintenance

- Check all the screws and nuts periodically for tightness. Tighten them when necessary.

Care and Cleaning

- Periodically clean the surfaces with a soft rag and water.
- Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

Specifications

Maximum load

3000 lbs. / 1360.5 kg

Pre-Installation

TOOLS REQUIRED

Hex Wrench
(Hex Key)

Hex Screwdriver Bit

Drill
(not included)

Open End Wrench (14 mm)
(not included)

Gloves
(not included)

HARDWARE INCLUDED

NOTE: Hardware shown to actual size.

Part	Description	Quantity
AA	M6 x 16 hex socket head screw	38
BB	Washer	16
CC	M8 hex nut	8
DD	M8 x 85 hex bolt	8
EE	Adjustable foot	4

Pre-Installation (continued)

PACKAGE CONTENTS

Part	Description	Quantity
A	Solid wood top	1
B	Back stiffener	2
C	Upper supporting frame	2
D	Bottom supporting frame	2
E	Front stiffener	1

Assembly

NOTE: Assemble on a flat surface. A piece of cardboard is recommended to keep the product from being scratched during assembly.

Please wear gloves during the whole assembling process.

1 ATTACH THE SOLID WOOD TOP AND UPPER SUPPORTING FRAMES

After assembly, the back of the upper supporting frames are flush with the solid wood top's back.

Attach the upper supporting frames (C) to the solid wood top (A) with sixteen M6 x 16 hex socket head screws (AA). Tighten securely.

2 ATTACH THE BOTTOM SUPPORTING FRAMES

Two open end wrenches (14 mm) are recommended. One to screw the bolt, and another one to hold the nut while screwing the bolt.

The back of the bottom supporting frame has two holes in it. The back of the bottom supporting frame should be fixed to the back of the upper supporting frame.

The left and right supporting frames should be at the same height after installation.

Husky 28" Base Cabinets with feet can be put under the Workbench. The Workbench should be at a height where at least 10 holes in each bottom supporting frame post visible.

Husky 28" Base Cabinets with casters can be put under the Workbench. The Workbench should be at a height where 13 holes in each bottom supporting frame post visible.

- Insert the bottom supporting frames (D) into the square holes of the upper supporting frames (C).
- Adjust the height of the bottom supporting frames (D) to a desired height. Adjust from 28.3 in. to 42.1 in. in 1 in. increments.
- Attach the upper and bottom supporting frames (C & D) together with eight M8 x 85 hex bolts (DD) and washers (BB) in the holes of the supporting frames (C & D). Insert a washer (BB) and a M8 hex nut (CC) onto the end of each M8 x 85 hex bolt (DD). Tighten securely.

3 ATTACH THE FRONT STIFFENER

Attach the front stiffener (E) to the front top of the workbench with nine M6 x 16 hex socket head screws (AA). Tighten securely.

4 ATTACH THE BACK STIFFENERS

Attach the back stiffeners (B) to the back of the workbench with thirteen M6 x 16 hex socket head screws (AA). Tighten securely.

Assembly (continued)

5 INSTALL THE ADJUSTABLE FEET

Screw the adjustable feet (EE) into the holes in the bottom supporting frames (D).

6 STAND UP THE WORKBENCH

Stand up the workbench and place it on the desired level floor. Adjust the feet if necessary to make the workbench stable.

Maintenance

Check all nuts and bolts periodically for tightness. When required tighten them.

Care and Cleaning

- Periodically clean the workbench surfaces with a soft rag and water.
- Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

Part	Description	Quantity
AA	M6 x 16 hex socket head screw	28
BB	M6 x 40 hex tapping bolt	2
CC	Shelf bracket	4
DD	M6 x 16 hex socket head cap screw	2

Pre-Installation (continued)

PACKAGE CONTENTS

Part	Description	Quantity
A	Top panel	1
B	Left side panel	1
C	Left door	1
D	Shelf	1
E	Bottom panel	1

Part	Description	Quantity
F	Right door	1
G	Right side panel	1
H	Back panel	2
I	Mounting bracket	1

Assembly

NOTE: Assemble on a flat surface. A piece of cardboard is recommended to keep the product from being scratched during assembly.

Please wear gloves during the whole assembling process.

1 ATTACH THE BOTTOM AND SIDE PANELS

Two M6 x 16 hex socket head cap screws (DD) (security screws) should be fixed to the left bottom face of cabinet for additional door security.

Attach the side panels (B & G) to the bottom panel (E) with two M6 x 16 hex socket head cap screws (DD) (security screws) and six M6 x 16 hex socket head screws (AA).

2 ATTACH THE TOP PANEL

Attach the top panel (A) to the side panels (B & G) with eight M6 x 16 hex socket head screw (AA). Insert the screws by hand. DO NOT tighten.

Assembly (continued)

3 ATTACH THE BACK PANELS

Make sure your floor is free of debris or the cabinet face is protected before laying the cabinet on its face.

The top edge of the top back panel should be inserted under the back of the top panel.

- Lay the cabinet on its face.
- Attach two back panels (H) to the back of the cabinet with fourteen M6 x 16 hex socket head screws (AA). Insert the screws by hand. DO NOT tighten.

Insert the top edge of top back panel under the top panel.

4 ATTACH THE DOORS

- Simply insert the pins from the hinges on the left door (C) into the slots of the bottom hinges at the front of the left side panel (B).
- Repeat the same procedure to attach the right door (F).
- Close the doors to see if the doors can touch the magnets completely. If not, adjust the cabinet's top and side panels to make sure the shape of the cabinet is square and flush. Until the doors can catch the magnets completely, tighten the top and back panels' screws.

Assembly (continued)

5 INSTALL THE SHELF

Insert four shelf brackets (CC) into the slots on the side panels (B & G) at the desired height. Make sure the four brackets (CC) are at the same height. Place the shelf (D) over the shelf brackets (CC), and push it down onto the shelf brackets. Make sure the shelf (D) is properly and safely locked by the upright hooks of the shelf brackets.

6 INSTALL THE MOUNTING BRACKET

The M6 x 40 hex tapping bolts (BB) should be drilled into the studs of the wall.

The mounting bracket should be level after installing on the wall.

Wear safety glasses when drilling the screws into the wall.

- Decide the location of the wall cabinet on the wall first to find the location of the mounting bracket (I). The bottom edge of the mounting bracket (I) should be 3.9 in. away below the cabinet's top edge.
- Install the mounting bracket (I) on the wall with two M6 x 40 hex tapping bolts (BB).

Assembly (continued)

7 HANG THE CABINET

Make sure the wall cabinet is securely attached to the mounting bracket.

Hang the wall cabinet onto the mounting bracket (I).

Maintenance

- Check all the screws and nuts periodically for tightness. Tighten them when necessary.

Care and Cleaning

- Periodically clean the surfaces with a soft rag and water.
- Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

Pre-Installation	2		

Safety Information

To reduce the risk of serious injury, read and follow the safety instructions below before assembling and using this product.

- This product is intended for indoor use only.
- This product is not designed for commercial nor industrial usage.

CAUTION: This caster set is for Husky 28 in. 4-drawer base cabinet and Husky 28 in. 2-door base cabinet only.

CAUTION: Check all nuts and bolts periodically for tightness. When required, tighten them again.

WARNING: Any assembly or maintenance of the product must be carried out by adults only.

WARNING: Wear safety glasses when removing or repositioning the casters. The tool could slip, causing personal injury.

CAUTION: DO NOT move the base cabinet when the caster are braked. DO NOT use casters on rough or uneven surface.

CAUTION: DO NOT over load. This may cause caster to collapse and /or base cabinet to tip over with serious personal injury, or product damage.

Warranty

3 year Limited Warranty. This warranty excludes incidental/inconsequential damages and failures due to misuse, abuse or normal wear and tear. This full warranty gives you specific rights, and you may also have other rights, which vary state to state. Contact the customer service team at 1-888-HD-HUSKY or visit www.huskytools.com.

Specifications

Maximum load for each caster	220 lbs. / 100 kg
------------------------------	-------------------

Pre-Installation

TOOLS REQUIRED

Phillips Screwdriver (not included)

Open End Wrench (10mm) (not included)

Safety Goggles (not included)

Gloves (not included)

HARDWARE INCLUDED

NOTE: Bolt shown to actual size.

AA

Part	Description	Quantity
AA	M6 x 16 hex flange bolt	16

Pre-Installation (continued)

PACKAGE CONTENTS

Part	Description	Quantity
A	Swivel caster	2
B	Rigid caster	2

Assembly

CAUTION: Make sure the brakes of the rigid casters face towards the inside of the base cabinet.

CAUTION: Please wear gloves during the whole assembling process.

- Carefully lay the base cabinet on its back, with a soft mat underneath for protection.
- Position the two swivel casters (A) on the back side of the base cabinet. Insert eight M6 x 16 hex flange bolts (AA) through the casters and into the bottom of the base cabinet. Tighten securely.
- Repeat the same procedure to install the two rigid casters (B) on the front side of the base cabinet. The brakes of the rigid casters (B) should face towards the inside of the base cabinet.

Maintenance

Check all the bolts and nuts periodically for tightness. Tighten them when necessary.

Care and Cleaning

- Clean the caster surfaces periodically with a soft rag and water.
- Grease and oil can be removed with most standard cleaning fluids. For safety, use a nonflammable cleaning fluid.

Service Parts

Part	Replacement Part #	Description	Quantity
A	302201	Swivel caster	2
B	302200	Rigid caster	2
AA	321006	M6 x 16 hex flange bolt	16
