Toilet Fit Check Guide

Product fit may differ from displayed as shape and distance of the tank and bowl may differ.

**Elongated**

The distance from the **center of the bolt holes** from the **toilet tank** must be at least 1.5 inches (40mm) apart.

**Round**

Measure the distance from the **bolt holes** to the **front of the toilet bowl** to determine the bowl shape.

---

**120-volt outlet is required**

Power Cord Length 1.2M (4ft)

Outlet may fit or may not fit
