

Water Security

FSS-50 Faucetlock®

The FSS-50 is a quick and inexpensive way of securing hose bibs and faucets from water theft, unauthorized use, miscellaneous vandalism and tampering. The FSS-50 is designed with a unique patented, “free-spinning” technology, its one piece (padlock free) design eliminates torque points therefore making it virtually impossible to remove without the key.

- Solid brass prevents rusting.
- Includes two (2) keys.
- Easy to install, no tools required.
- Installs and removes in seconds.
