Safety check

Regular Maintenance Will Preserve the Life of Your Chair

Have you experienced any of these problems?

- The chair does not start with the Main POWER switch set to ON.
- The power cord has been cracked or scratched.
- The power cord or plug becomes abnormally hot.
- The chair produces a burnt smell, abnormal sound or vibration.
- The auto timer function does not work in some cases.
- Other failures.

To use safely

The chair fabric (roller fabric) is a consumable part, and its service life is 3 years (conditions of use: two 15-minute sessions a day, every day). For safe use, periodic inspection by the vendor is recommended before the end of its service life.

* Durable years vary depending on conditions of use.
* After about five years of use, a professional inspection is recommended even if there are no symptoms or problems. For inspection fees, contact the vendor.
Storage and care

Storage

- After cleaning the dirt and dust, place the chair in a dry place.
- If the chair is left unused for a while, please cover the chair to prevent dust.
- Pets sometimes chew on power cords, so try to keep the pets away from the chair even when it is stored.

**CAUTION** Do not install the chair where it can come into contact with direct heat, such as direct sunlight or a radiator.

Care and Maintenance

**CAUTION** When cleaning the chair, be sure to unplug the power plug from the wall outlet first. Do not plug or unplug the power plug with wet hands.

[Caring for the Back Pad and Covers]
Soak a piece of soft cloth in lukewarm water in which a small amount of mild detergent has been added. Then thoroughly wring it out before cleaning off any spots or grime.

**CAUTION** The fabric color can change if the chair is in contact with vinyl covers or wall coverings for a prolonged period of time.

[Caring for Other Plastic Parts]
Soak a piece of soft cloth in lukewarm water in which a small amount of mild detergent has been added, thoroughly wring it out, and clean off any spots or grime. Then wipe with a dry cloth so that no detergent residue remains.

**CAUTION** Do not use alcohol-based or other household cleaning products or abrasives because they can scratch or crack the finish or cause color to fade.

[Caring for the Remote Control]
Wipe dirt off the remote control with a dry cloth.

**CAUTION** Never use a moistened or wet cloth. May result in a mechanical failure.
