

Warranty & Repair

All Sound Appeal speaker products have (2) year Limited Warranty against defects in materials and workmanship. Proof of purchase must accompany all claims. During the warranty period Sound Appeal will replace any defective part and correct any defect in workmanship without charge for either parts or labor. Sound Appeal may replace returned speakers with a product of equal value and performance. In such cases, some modifications to the mounting may be necessary and are not Sound Appeal's responsibility. For this warranty to apply, the unit must be installed and used according to its written instructions. If necessary, repairs must be performed by Sound Appeal. The unit must be returned to Sound Appeal at the owner's expense and with prior written permission. Accidental damage and shipping damage are not considered defects, nor is damaged resulting from abuse or from servicing performed by an agency or person not specifically authorized in writing by Sound Appeal. Sound Appeal sells products only through authorized dealers and distributors to ensure that customers obtain proper support and service. Any Sound Appeal product purchased from an unauthorized dealer or other source, including retailers, mail over dealers and online sellers will not be honored or serviced under existing Sound Appeal warranty policy. Any sale of product by an unauthorized source or other manner not authorized by Sound Appeal shall void the warranty on the applicable product.

Damage to or destruction of components due to application of excessive power voids the warranty on those parts. In these cases, repairs will be made on the basis of the retail value of the parts and labor. To return for repairs, you must call customer service at: 877-302-8397 for a Returned Merchandise Authorization (RMA) number # then the unit must be shipped to Sound Appeal at the owner's expense, along with a note explaining the nature of service required. Be sure to pack the speaker(s) in a corrugated container with at least 3 inches of resilient material to protect the unit from damage in transit. This Warranty Does Not Cover: Damage caused by abuse, accident, misuse, negligence, or improper operation (installation). Any products that have been altered or modified. Any product whose identifying number of decal, serial #, etc. has been altered, defaced or removed. Normal wear and maintenance.

Speakers Installation

These indoor/outdoor weatherproof loudspeakers are manufactured to resist a variety of weather conditions. Snow, rain and sun (not to be submerged under water). For durability / longevity we do recommend removing the speakers from the brackets and placing inside during extended extreme temperatures over 120 degrees and below 0 degrees. The most ideal place to install these speakers is under the overhangs as they provide the best protection. Like all speakers, they sound the best when placed no more than eight feet apart from each other, and slightly higher than ear level. When choosing the speaker location - consider the location of the power source. The powered speaker should be placed near the power source. The passive speaker could be placed further away and should be connected to the powered speaker.

Back

Front

- 1: LED
- 2: DC IN (POWER)
- 3: RIGHT SPEAKER OUTPUT
- 4: ON/OFF SWITCH

WIRING

When connecting the speakers, it is very important to observe the correct polarity. This means that the wire attached to the (+), red, or positive terminals on one component must be attached to the (+), red, or positive terminal on the corresponding component speaker output terminals. Similarly, the (-), Black, Negative or ground terminals must connect to the respective (-), Black, Negative, or ground terminals. This is easy to do by locating the color stripes that appears on the included speaker wire. If longer wire run is needed use 16 gauge weatherproof wire up to 50 feet.

Placing Speakers

If your application requires the speaker to be mounted, please follow these directions. Using the appropriate screws (not included) mount the bracket. Attach the speakers to the brackets using the large plastic knobs supplied.

Mounting

To install the bracket on the speaker. Screw the bracket knobs into the cabinet. Point the speaker toward the listening area. Once the direction of the speaker has been determined tighten the bracket knobs securely. When possible tilt the speakers down to increase longevity and prevent from the weather elements.

Method of Use

Initial Set-Up

- Turn ON iPhone, Android, or Other Bluetooth Device
- Open the Blue Tooth Function
- Search Blue Tooth Device: **Bluetooth**
- Touch device "Bluetooth" for automatic connection
- Play Music via Android and or iTunes
- Control Volume via Bluetooth Device and Enjoy.
