

## **INSTALLATION INSTRUCTIONS**

- Position item on mounting surface.
- Check for level, center, etc. and mark screw hole locations on mounting surface.
- For mounting on wall, drill  $\frac{3}{16}$  in holes and insert plastic anchors; for mounting on solid wood surface, drill  $\frac{1}{8}$  in starter hole.
- Using the screws provided, attach the item to the mounting surface, being careful to "snug" the screws without overtightening them.
- Insert plastic plugs; if necessary, tap lightly with a hammer.
