

Safe & Sound Onboarding

Let's Get Started

Installation is easy by following just a few simple steps.

- 1 Remove your current hardwired smoke alarm and its mounting bracket
- 2 Install your Onelink Safe & Sound mounting bracket
- 3 Use the easy adaptor plug (included) to plug in your alarm
- 4 Carefully turn your Safe & Sound quarter clockwise.

Now, download the Onelink Home app and it will walk you through the simple set up process.

What's In The Box

Onelink Safe & Sound

Mounting Bracket

System Requirements

Wireless Network

For best results, it's recommended to use a 2.4 GHz / 802.11 b/g/n router.

Android or iOS Device

You can use your Onelink Safe & Sound with Android 5 or later and with iOS 10 or later.

Onelink Home App

Search and download Onelink Home app from App Store or Google Play

You will also need a ladder, screwdriver, and pencil.
