

Ascend® Smart In-Wall Timer

Next Generation 7-Day Programmable Timer (STW700W & STW700LA)

Now Available in Light Almond

Save Time and Money Every Time You Install Ascend

The new Wi-Fi Ascend Smart In-Wall Timer helps contractors save time on installations while offering homeowners convenient tech-forward features.

Contractor Benefits

- **Save Time** – Save an average of 5 to 15 minutes on every Ascend time switch installation with streamlined smartphone programming options.
- **Wi-Fi Not Required** – Fully set and schedule Ascend with any smartphone or tablet using a secure peer-to-peer communication channel. Wi-Fi is not required for initial setup.
- **Schedule Templates** – Pre-programmed templates fit 80 to 90 percent of timer applications. Schedule Save feature makes it easy to duplicate custom schedules across multiple timers.

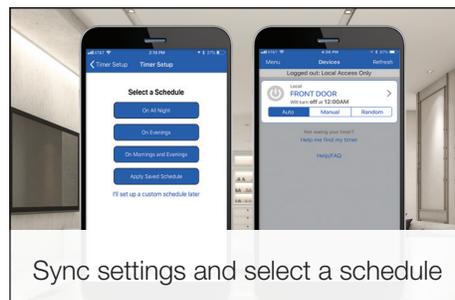

Homeowner Benefits

- **Anywhere Access** – Download the Ascend Smart Timer app to any Apple® or Android® device to update programming schedules on the fly.
- **Voice Control** – Pair the Ascend Smart In-Wall Timer with Amazon Alexa and the Google Assistant to enable voice-activated commands, including ON/OFF and status check.
- **Standalone Automation** – Get many of the same benefits of a complex home automation system without the hassle - **no hub required**.
- **Longevity** – LCD interface helps new homeowners connect to existing Ascend units, assists when syncing a new smartphone.

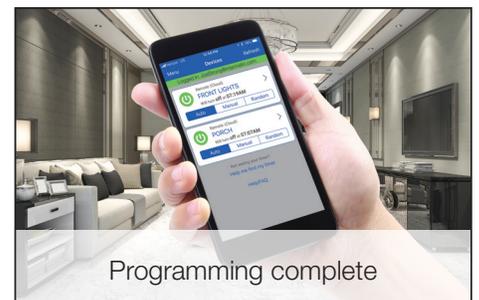

Install in minutes using the Ascend Smart Timer app.

Ascend® Standard In-Wall Timer

7-Day Programmable Timer (ST700W)

Come Home to Ascend

Simplify lighting schedules, improve security and boost energy efficiency with the Ascend In-Wall Timer (ST700W).

- **Modern Design** – A sleek, stylish design helps Ascend fit seamlessly with nearly any home décor or color scheme. Its visual LCD interface lets homeowners view upcoming events and make updates with ease.
- **Intuitive Setup** – Three pre-programmed schedule templates make it easy to set and customize schedules in a matter of minutes. Homeowners can add up to 42 unique events throughout the week to ensure schedules match perfectly to fit their needs.
- **Automatic Adjustment** – Using geolocation information, Ascend calculates Astronomic ON/OFF dusk and dawn times to provide the most accurate lighting schedule possible. It even adjusts automatically for Daylight Saving Time.
- **Battery Backup** – Ascend includes a battery backup that keeps time and date information in place for up to three days in the event of a power loss. Schedules and other settings are kept indefinitely in non-volatile memory.

Flexible and robust, Ascend caters to both traditional, no-frills homeowners and gadget-loving smart home enthusiasts.
