

Van Zyverden's
TUBEROSES POLIANTHES DOUBLE BLOOMING

Tuberose Polianthes is tropical and native to Mexico. These unique, waxy, white tubular, multi-petalled blossoms open up to 2 inches across and appear in loose clusters on the upper part of the stems. Long-lasting and very suitable as cut flowers with their sweet fragrance. They are among the most strongly perfumed of all flowers. Use in borders, containers and as cut flowers. Deer and critter resistant.

*They are among
the most strongly
perfumed of all flowers*

Excellent as a cut flower

*Prefers a warm spot
in full sun*

About This Variety: While noted for its beauty and ivory elegance, it is the delightful fragrance that makes it special. It will give your house that flower shop freshness.

Growing Instructions: Plant in spring after the weather is relatively warm. Avoid muddy areas as they don't like wet feet.

Care Tip: In northern locations plant in a protected sunny location. In zones 8 and above they can be left in the ground year around.

Exposure: Full sun to partial shade

Height: Grows 30" Tall

Spacing: Plant 8-12" apart, 3" deep

Hardy in: USDA zones 7-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
