

Furniture Restoration System

This kit contains a cross-section of our most popular items; Polish and Cleaner, Dark and Light Scratch Remover and 4 of our most popular toned wax Fill Sticks (along with a microfiber polishing cloth so that you can spare the life of a t-shirt).

With the Furniture Polish and Cleaner, you can carry out daily care of your furniture and other finished and veneer surfaces without worrying about damage to the finish and knowing that you will obtain beautiful, streak-free results without any sticky build up. Always apply polish to the microfiber polishing cloth and NOT directly to the wood surface and remember, a little goes a long way.

The Scratch Removers allow you to effect quick, but professional touch ups to surfaces with scratches and minor surface imperfections by simply choosing dark or light, wiping on then wiping off the excess.

Finally, for those deeper surface repairs, the wax Fill Sticks fill and contour to the damaged area and can even be top coated with a varnish or paint to make the repair permanent.

This is care and repair kit has everything to get your furniture looking beautiful again and to keep it that way.

Oh, don't forget the microfiber polishing cloth, your t-shirts will thank you!

- Streak-free polishing removes old wax and fingerprints
- No sticky build up
- Hide scratches and minor surface defects
- Restore worn surfaces
- Fill deeper gouges and scratches
- Great for all of your furniture, cabinets, flooring and woodwork
